State Taxes and Aids
By Municipality and County
For Calendar Year 2011

WISCONSIN DEPARTMENT OF REVENUE
Division of Research and Policy
October 2012

INTRODUCTION

The State of Wisconsin has traditionally shared a large part of its revenue with counties, municipalities, school districts, and other local governments.

A provision of the State Constitution (currently Article X, Section 2) directed that the interest earned on the "School Fund", which included the sales proceeds from land granted to the state for school purposes plus certain fines and forfeitures, be used exclusively for the support and maintenance of common schools and the purchase of suitable libraries. In response, the Legislature passed a law (Chapter 20, Laws of 1849) which provided that the interest earnings be distributed to those governmental units operating schools based on the number of pupils in attendance.

In its first decades, both the state and its local governments relied on property taxes for most of their revenue needs. However, as the portion of the state's economy from urban and non-agricultural activity grew, problems concerning the fairness and adequacy of the property tax also grew.

In response, in November 1908, state voters approved an amendment to the State Constitution which permitted the state to impose a state income tax using graduated tax rates. The law implementing the state income tax was enacted in 1911. In addition to imposing an income tax, the law did two other things: (1) exempted intangibles (primarily money, stocks, and bonds) and personal possessions (primarily jewelry and household furniture) from property taxes, and (2) directed that 70% of income tax collections be returned to municipality from which collected and 20% be returned to the county where collected, to compensate for the loss in property taxes.

This sharing of the income tax with local governments set a precedent which was followed in subsequent years as other state taxes and fees were enacted. For example, in 1931, the Legislature enacted a law which imposed a state license fee on motor vehicles, exempted licensed vehicles from property taxes, and directed that 20% of the fees be returned to the municipality where the vehicle was normally kept.

Although state law no longer specifies how much of the various state taxes and fees are to be shared with local governments, the practice of using state taxes and fees to fund payments to local governments continues. While property tax relief is often cited as a primary reason for such payments, the various state aid payments are intended to meet several goals, such as:

(1) Cost sharing – Many of the state's human service programs are administered by county governments, as are circuit courts and related legal services. Highways, mass transit, and other transportation services are provided by counties and municipalities. The state aids for these services are often set at some percentage of costs, or some flat rate per unit (such as highway miles). In addition, there are grant programs under which the state makes discretionary payments to local governments to help pay for certain capital improvements.

(2) Direct tax relief – Some state aid is in the form of credits that appear directly on property tax bills. The two biggest examples are the school levies credit and the lottery and gaming credit.

(3) Equalization: state aid is intended to permit local government to provide for similar levels of service (as measured by per pupil or per capita expenditures) at tax rates as nearly equal as possible. The largest such program is the school equalization program. At one time, most of the state shared revenue payment was also distributed on an equalization formula basis (and, despite payments being frozen and/or reduced for several years, arguably are still so distributed.)

In relation to total state aids, the percentage breakdown is roughly as follows: 25% cost sharing, 10% direct tax relief, and 65% equalization.

For purposes of this analysis, state revenues include most general fund taxes and segregated fund revenues such as transportation fund licenses and taxes, conservation fund license and user fees, and net lottery

proceeds. The data generally reflect collections for the 2010/11 and 2011/12 fiscal years as reported in the "Annual Fiscal Report: Budgetary Basis" prepared by the Department of Administration (DOA) – State Controller's Office. Revenue data are generally available only on a state total basis. The methods used to allocate state revenues to municipalities attempt to measure the taxes paid by residents and businesses located in that municipality. Since there is no definitive way to allocate revenues, the allocations in this report should be viewed as approximations of the actual taxes paid.

Data on state aids are based on information in the "State Payments Register" maintained by the Department of Revenue (DOR). The register includes data on most state aid payments to local governmental units (counties, municipalities, school districts, technical college districts, metropolitan sewerage districts, town sanitary districts, and lake districts). Federal aids, except for "stimulus" funds for which the state can effectively decide how they are used, are excluded when identifiable as federal funds. Aids to individuals and non-government organizations are also excluded since they are not paid to local governmental units.

This report provides estimates of state revenues and state aid payments by county and municipality for 2011. The report shows that 62.71% of state revenues were returned to local governments in 2011. After allocating county, school district, technical college district, and special district aids to the underlying municipalities, the percentage of state revenues returned as state aid payments was 75.26% for towns, 52.44% for villages, and 59.78% for cities.

The estimated ratio of state aid to state revenue for each municipality reflects a combination of both unique factors and overall tax capacity. For municipalities (excluding certain low population and/or low value pieces of multi-county villages and cities), the highest percentages were for the Village of Gays Mills in Crawford County (694.43%) and the Town of Popple River in Forest County (440.75%), and the lowest percentages were for the Village of Jackson in Washington County (13.19%) and the City of Mequon in Ozaukee County (12.89%). For counties, the highest percentages were for Menominee (364.04%) and Rusk (134.01%), and the lowest percentages were for Waukesha (28.26%) and Ozaukee (28.03%).

The report was prepared by Daniel P. Huegel, Division of Research and Policy. Questions about this report may be directed to him at (608) 266-5705 or by e-mail at: Daniel.Huegel@revenue.wi.gov

GENERAL INFORMATION

Some villages and cities are located in two or more counties. These localities are indicated by an asterisk (*) in the tables. The allocation of state aid to each piece depends on the method used to calculate the aid payments. Information for the total municipality is available at the end of the report (following the appendix with county data).

2011 DOA Final Population
This is the population as of January 1, 2011 as estimated by the Wisconsin Department of Administration, Division of Intergovernmental Relations.

2011 Full Value per Capita
This is the equalized value of all taxable property (including value increments in tax incremental financing districts) as of January 1, 2011 as determined by DOR's Bureau of Equalization, Division of State and Local Finance, divided by the 2010 DOA final population.

2011 WAGI per Tax Return
Wisconsin adjusted gross income (WAGI) equals income after business expenses and before the standard deduction, as reported on individual income tax returns for tax year 2011. WAGI per tax return equals the total WAGI divided by the number of tax returns in that municipality. For municipalities in two or more counties, the figure represents data for the specific "county piece".

STATE REVENUE COLLECTOINS

Individual Income Taxes

This is an estimate of the amount of individual income taxes paid by residents in the municipality. The estimate is based on an analysis of tax returns for tax year 2011 on which a valid municipality of residence was reported.

Taxpayers commonly report their "post office" village or city as their municipality of residence. As a result, the "tax population" (total count of filers plus dependents) and the income tax payments for many municipalities, notably villages and cities with post offices that serve large rural areas, tend to be considerably overstated. The following procedure was used to adjust for this misreporting:

The procedure is based on two assumptions: (1) the county of residence is reported correctly, and (2) the average income per tax return is a reasonable estimate of income levels in the municipality.

Step 1: The "local/county income ratio" was calculated as follows:

$$\frac{\text{Municipal income per tax return}}{\text{County income per tax return}}$$

Step 2: An "income-weighted population" was calculated by multiplying the municipality's estimated population by its "local/county income ratio".

Step 3: The total WAGI for the county was allocated to each municipality in the county based on the percentage of the county "income-weighted population" located in the municipality. This is the estimated WAGI for the municipality.

Step 4: The income tax paid by residents in the municipality was estimated by multiplying its estimated WAGI by the average income tax rate for the county.

The following table demonstrates how this procedure affects the income taxes allocated to individual municipalities.

Item	City of Schofield (Marathon County)	Village of Marathon (Marathon County)
2011 DOA Final Population	2,168	1,526
Number of tax returns for 2009	2,912	178
State income tax as reported	$ 4,383,296	$ 357,144
State income tax as adjusted	$ 1,726,973	$ 1,520,856

As the example shows, this procedure reallocates income taxes so that taxes for municipalities with too many tax returns relative to population (like Schofield) are reduced while taxes for municipalities with too few tax returns relative to population (like Marathon) are increased.

Corporate Franchise and Income Taxes

This is the amount of corporate franchise and income tax collected in 2011 allocated to each municipality as follows:

1) 25% on the basis of the 2011 DOA final population,
2) 40% on the basis of the 2011 equalized value of commercial real and personal property, and;
3) 35% on the basis of the 2011 equalized value of manufacturing real and personal property.

Sales and Use Taxes

This is the amount of net sales and use taxes collected in 2011 allocated to each municipality as follows:

1) 35% on the basis of the 2011 DOA final population,
2) 35% of the basis of the 2011 attributed WAGI,
3) 30% on the basis of the 2011 equalized value of commercial and manufacturing real and personal property.

WARNING: This is an estimate of the sales and use taxes paid by residents and businesses in the municipality, regardless of

where the business transaction on which the tax was imposed took place. The data are NOT an estimate of the sales and use taxes collected at business enterprises located in the municipality.

Excise Taxes
This is the amount of excise tax collections in 2011 on cigarettes, tobacco products, beer, liquor, and wine allocated to each municipality on the basis of the 2011 DOA final population.

Utility Taxes
This is the amount of utility tax collections in 2011, as reported by the DOR's Bureau of Utility Taxes from private and municipal light, heat, and power companies; telecommunications companies; pipelines; rural electric cooperatives; municipal electric association projects; and conservation and regulation companies. These revenues are allocated to each municipality as follows:
1) 50% on the basis of the 2011 DOA final population, and
2) 50% on the basis of the 2011 equalized value of commercial and manufacturing real and personal property.

Net Lottery Proceeds
This is the amount of net operating income (gross sales less prizes, program expenses, and administrative expenses) in 2011 based on data from accounting staff at the Department of Revenue. This amount is allocated to each municipality on the basis of the 2011 DOA final population.

Transportation Fund Revenues
This represents collections in 2011 from motor vehicle registration fees, driver license fees, motor carrier fees, motor fuel taxes, railroad and airline property taxes, and other transportation-related revenues. These revenues are allocated to municipalities on the basis of the 2011 DOA final population.

Conservation Fund Revenues
Collections in 2011 from fishing and hunting licenses; state park, forest admission, and recreational fees; and registration fees for all terrain vehicles, snowmobiles, and boats were allocated to municipalities on the basis of the 2011 DOA final population. The state forestation property tax and the per acre closure fee for land in the Managed Forest Land program were allocated to the municipality in which the tax or fee was levied, as reported to DOR on municipal Statement of Taxes.

Other Revenues
Collections in 2011 from gift and inheritance taxes, petroleum inspection fees, recycling fees, and insurance premium taxes, and fire dues (the tax on fire insurance premiums) were allocated to each municipality as follows:
1) 50% on the basis of the 2011 DOA final population, and
2) 50% on the basis of the 2011 equalized value.

The state's share of the real estate transfer fee is based on data for 2011 as reported by DOR's Bureau of Utility Taxes. The revenue was first allocated to the county from which the fee was collected, and then allocated to each municipality based on 2011 equalized value.

The state share of occupation taxes (collected through the property tax system) in 2011 was allocated to the municipality where the tax was levied, as reported to DOR on municipal Statements of Taxes.

Total State Revenues
This is the sum of the preceding nine columns.

PROPERTY TAXES

Gross Property Tax Levy
This is the total 2010/11 general property tax levy before tax credits.

STATE AIDS

Shared Revenue
This is the amount paid in 2011 from the utility payment, county and municipal aid payment, and the expenditure restraint payment formulas. The portion of the county and municipal aid payment funded by the Department of Health Services (DHS) [referred to as prepaid medical transportation reimbursements] is not included here, but is included under miscellaneous aids. For municipalities in two or more counties, payments were allocated to each "county piece" as property taxes were allocated based on the 2010 equalized value excluding value increments in TIF districts.

School Levies Credit
This is the school levies paid in 2011 to reduce 2010/11 property taxes. For municipalities located in two or more counties, the amount is the actual payment for that piece. For municipalities for whom the credit was paid to the county during the property tax settlement process, the credit was allocated to the municipality that "earned" the credit.

First Dollar and Lottery Credit
This is the total of the first dollar credit and the lottery credit paid in 2011 to reduce 2010/11 property taxes. The first dollar credit equaled the school levies on the first $6,800 in full value on real estate parcels with one or more improvements. The lottery credit equaled the school levies on the first $9,000 in full value of primary residences, including mobile homes on which the monthly parking fee is paid in-lieu of property taxes. For municipalities in two or more counties, the credits are the actual payment for that piece. For municipalities for whom the credits were paid to the county during the property tax settlement process, the credits were allocated to the municipality that "earned" the credits.

Natural Resources Aids
This is the amount paid by the Department of Natural Resources (DNR) to each municipality in 2011. A partial list of the aids includes: per acre, severance taxes, yield taxes, withdrawal fees, and penalties related to lands in the Forest Crop, Managed Forest, and County Forest programs; aids in-lieu of taxes on DNR-owned land; boating projects; brownfield grants; fire suppression; lake management; non-point source pollution programs; recycling programs; river protection; Stewardship 2000 projects; urban forests; and wildlife abatement and control. If a municipality is required to share the payment with other governments (such as aids in-lieu of taxes), the aid was allocated to the municipality that received the initial payment. Payments to special districts were allocated to municipalities based on the 2010 equalized value excluding value increments in TIF districts. For municipalities in two or more counties, payments were allocated to each "county piece" based on 2010 equalized value excluding value increments in TIF districts.

Transportation Aids
This is the amount paid to each municipality in 2010. A partial list of these aids includes: general highway aid, bicycle and pedestrian paths, connecting highways, flood damage, harbor assistance, lift bridges, mass transit, and special grants for local road improvements. For municipalities in two or more counties, payments were allocated to each "county piece" based on the 2010 equalized value excluding value increments in TIF districts.

Miscellaneous Aids
This is the sum of amounts paid to each municipality in 2010 from the following departments and programs (a partial list):
1) Administration: housing-related grants, justice-related grants, planning grants, public benefits grants, transmission line impact and annual fees, and payments for services to state-owned facilities
2) Commerce and Safety and Professional Services: brownfield grants, fire insurance dues, housing assistance grants, and petroleum storage environmental program grants
3) Election Board: election aids,
4) Health Services and Children and Family Services: ambulance funding assistance, aids for general health and family service programs, and "prepaid medical transportation reimbursements".
5) Justice: law enforcement training and victim assistance grants

6) Military Affairs: emergency government planning, disaster recovery, and hazardous materials handling and equipment grants.
7) Public Instruction: public library construction grants
8) Tourism: payments in-lieu of taxes for land in the Kickapoo Valley Reserve
9) Revenue: exempt computer aids and "terminal" payments for oil pipeline terminals, railroad docks, and railroad repair facilities.
10) Workforce Development: administrative services

Payments to special districts and to municipalities in two or more counties were allocated based on the 2010 equalized value excluding value increments in TIF districts.

School Aids
This amount reflects aid payments in calendar year 2011 to cooperative education service agencies (CESA), technical college districts, and elementary and secondary school districts. Among the aid payments included in the analysis are:
1) CESA: general aid for CESA operations and the other education programs carried out by CESAs.
2) Technical colleges: general equalization aid, plus all other state aids such as college parallel programs, faculty development, health care education, minority student retention), and exempt computer aid.
3) Elementary and Secondary schools: General aid, consisting of equalization aid, inter-district and intra-district integration aids, and special adjustment aid, constitutes most of this aid. All other state aids, such as children with disabilities, children-at-risk programs, nutrition-related programs, professional development, pupil transportation, school libraries, and exempt computer aids, are also included.

The school aids paid to each CESA district, technical college district, and elementary and secondary school district were allocated to underlying municipalities based on 2010 equalized value excluding value increments in TIF districts. For municipalities in two or more counties, aids were calculated for each piece separately.

County Aids
This amount reflects the municipality's share of state aids paid to counties in 2011. County aids were allocated to municipalities based on 2010 equalized value excluding value increments in TIF districts. For municipalities in two or more counties, aids were calculated separately for each piece. A detailed list of county aids is provided in the appendix.

Total State Aids
This is the sum of the preceding eight columns.

State Aids as a % of State Revenues
This is the total state aids divided by the total state revenues.

Gross Property Tax Rate (mills)
This is the 2010/11 gross property tax levy (the tax for all purposes, including TIF incremental tax levies) divided by the 2010 equalized value including value increments in tax increment districts.

State Aids (in mills on Full Value)
This is the total of all state aid payments paid in 2011 divided by the 2010 equalized value excluding tax increments. It represents the property tax relief effect of state aids in relation to the property tax base for 2010/11 property taxes.

APPENDIX: State Payments to Counties

General Government Aids
This is the amount paid to each county in 2011 from the following departments and programs:
1) Circuit Courts: court operations support, guardian ad litem payments, and court interpreter grants.
2) Justice: law enforcement services and training, victim assistance, and related aids.

Education Aids
This is the amount paid to counties in 2011 for the following programs:

1) County-operated children with disabilities educational programs.
2) Payments to regional library commissions (allocated to counties based on their 2010 equalized value excluding value increments in TIF districts).

Health and Human Services Aids
This is the amount paid to each county in 2011 from the Department of Health Services, the Department of Children and Family Services, and the Department of Workforce Development related to administering income maintenance and other payment programs to individuals, ambulance funding assistance grants, and prepaid medical transportation reimbursements. Aids to multi-county agencies were allocated on the basis of 2010 equalized value excluding value increments in TIF districts.

Natural Resources Aids
This is the amount paid to each county in 2010 for programs such as all-terrain vehicle and snowmobile trails and enforcement; county conservation aids; county forest roads; lakes management grants; non-point source pollution grants; recycling programs; river protection; Stewardship 2000 grants; urban forestry aids; and wildlife abatement, control, and damage claims. Aids to multi-county and quasi-governmental entities were allocated on the basis of the 2010 equalized value excluding value increments in TIF districts.

Transportation Aids
This is the amount paid to each county in 2011 for general transportation aids (the basic grant paid to all counties) plus aids for county forest roads, demand management programs, elderly and disabled transit, flood damages, harbor assistance, and mass transit programs.

Shared Revenue
This is the amount paid in 2011 from the utility payment and the county and municipal aid payment formulas. The portion of the county and municipal aid payment funded by the Department of Health Services (DHS) [referred to as prepaid medical transportation reimbursements] is not included here, but is included under health and human services aids. The payment is shown before deductions (such as the deduction from Milwaukee County's payment regarding the administration of child welfare programs in that county).

Other Aids
This is the amount paid to each county in 2011 from the following departments and programs:
1) Administration: district attorney salaries, grants to non-profit organizations, recording equipment), Land Information Board grants; electric transmission line impact fees, Public Benefits Fund grants; and transportation planning grants.
2) Agriculture, Trade, and Consumer Protection: Clean Sweep program grants, drainage board assistance, resource management programs, and soil and water conservation programs.
3) Elections Board: grants the purchase of equipment to assist voters unable to use conventional ballots
4) Commerce and Safety and Professional Services: housing assistance, petroleum storage environmental programs, and private sewerage system grants.
5) Corrections: aids for operating county jails.
6) Military Affairs: disaster recovery, response, and planning programs; grants for emergency management equipment.
7) Revenue: exempt computer aid payments.
8) Veterans Affairs: grants for veterans services.

Total County Aids
This is the sum of the preceding 7 columns

General Information and Estimated State Revenue Collections -- By Taxation District -- For Calendar Year 2011

*** Revenue is allocated to where the taxpayer lives, which may differ from where the tax was collected. ***
