

## TESTING

Testing of software designed to produce an electronic Wisconsin tax return is mandatory. Testing will begin approximately November 15, 2011. Testing can and will be available thru February 24, 2012. A test package will be available as soon as possible after November 7, 2011. Before sending in a test transmission, please notify Gordon Thompson at (608) 267-5192, [Gordon.Thompson@revenue.wi.gov](mailto:Gordon.Thompson@revenue.wi.gov).

**All 13 scenarios must be submitted. If you do not support the 1NPR, then you may skip numbers 3 and 13. If there are schedules in the scenario that you do not support, then submit the scenario without that schedule (and do not claim the credit), we will adjust our answer sheets based upon what you do support.**
