TID MANUFACTURING PERSONAL PROPERTY LIST

EFFECTIVE CREATION OR AMENDMENT DATE:

JANUARY 1, 20 ____

See Instructions on Reverse Side

Check one:
<input type="checkbox"/> Regular (s.66.1105)
<input type="checkbox"/> E. R. (s.66.1106)
<input type="checkbox"/> Town (s.60.85)

Do not put any values in columns 3-7. Revenue will complete.

Column 1 DOR Computer Number, Business Name, & Site Street Location	Column 2 *Over- lapping TID #'s	Column 3 Boats & Other Watercraft	Column 4 Machinery, Tools, & Patterns	Column 5 Furniture, Fixtures, & Equipment	Column 6 All Other Personal Property	Column 7 Total
Totals →						

* Only applicable to a Regular or Town TID.

INSTRUCTIONS

Fill in the county, municipality, CoMun Code, TID number, School/Special District (if applicable) in the upper left hand corner.

If state assessed parcels in this TID lie in more than one county or school district, or if only some of the parcels are in a special district; use additional forms to report each portion separately.

In the blank, under the form's title, fill in the TID creation or amendment year.

List all parcels in the TID that are assessed by the state. **Do not include** the state manufacturing values.

If the TID does **NOT** contain any manufacturing personal property, write "**NONE**" across the form.

DOR COMPUTER NUMBER, BUSINESS NAME & SITE STREET LOCATION COLUMN (#1)

List the DOR Computer Number that appears on the second column of the manufacturing personal property assessment roll. List the name of the owner that appeared on the assessment roll. Identify the physical site location by street **not** the owner's address.

OVERLAPPING TID#'s COLUMN (#2)

Use this column only, if the newly-created or amended TID has boundaries that overlap an existing TID(s) and some or all of the personal property parcels overlap also. ER TID's **cannot** have overlapping boundaries.

In the column list the overlapped TID numbers.

COLUMNS (#3, #4, #5, #6 AND #7)

Do not include values as this is State assessed property and DOR will complete.

WARNING

Failure to provide this information for any state assessed parcels that have not been entirely included within the TID boundaries could result in an inaccurate base value certification.
