**FOR ASSISTANCE IN COMPLETING THIS FORM
PLEASE CONTACT THE ASSESSOR**

Please read the individual instructions carefully before proceeding to fill out the schedules that apply to your property. Use additional sheets if reporting needs exceed this form.

Who Must File? Every person, firm, or corporation as defined in s. 70.35, Wis. Stats., receiving from the assessor a return of personal property must submit the return to the assessor on or before March 1. This return is confidential and is not available for public inspection.

Failure to File: If you fail to file, the assessor must estimate the value of your property using the best information available. In addition, you shall be denied any right of abatement by the board of review, under section 70.35(4), Wis. Statutes.

Per 70.36(1m) Any person, firm or corporation that fails to include information on property that is exempt under s. 70.11(39) and (39m) on the report under s. 70.35 shall forfeit \$10 for every \$100 of major fraction thereof that is not reported.

This form is to be used for your listing of real and personal property assets subject to property taxation as of January 1, 2010. In the event that you have a computer printout or other comparable report, such a report could be acceptable if it is complete and marked for identification of all asset groups (Schedules I through X). If you choose to submit a computer printout or other similar report, you must still complete and submit pages 1 and 2 of this report form. The completed forms or equivalent information must be returned to the assessor's office no later than March 1, 2010.

PROPERTY REPORT INSTRUCTIONS

1. Please read the instructions at the heading of each schedule to determine the type of property to be identified and listed. If the space allotted under any schedule is inadequate for reporting full information, make duplicate copies of this form or add additional statements.
2. Indicate **acquisition dates** and **original cost**, including installations, freight, engineering, overhead, etc. Also include the cost of renovating, rebuilding, overhauling, and all other costs which have been capitalized in addition to the original cost of the item. **DO NOT DEDUCT FOR DEPRECIATION.** The original cost of capital assets which have been totally depreciated for IRS purposes must also be included in the report if such assets are listed as capitalized assets on your accounting records and these assets are still in use.
3. For this return to be completed an answer must be given in each schedule. If the word "NONE" is appropriate, please so state.
4. This report must be signed by a duly authorized officer or designated employee of the property owner.

<p>RETURN BY MARCH 1st TO THE ASSESSOR</p> <p>(See Wisconsin Laws Above)</p>

SCHEDULES B THROUGH H – INSTRUCTIONS

Schedules B through H are provided for reporting towers and antennae; service, test, remote and mobile equipment; distribution, processing, and origination equipment; subscriber converters; furniture, fixtures, and office equipment; and all other taxable personal property. These schedules utilize the price index method of valuing assets. You are required to report the original fixed assets cost by year of acquisition. The costs for each year are multiplied by a conversion factor, which adjusts the costs for price changes and depreciation based on a 150% declining balance, to obtain current market values.

The equipment in Schedule G is exempt under Section 70.11(39) and (39m). If the owner of the property fulfills the requirements under s. 70.35, mainframe computers, minicomputers, personal computers, networked personal computers, servers, terminals, monitors, disk drives, electronic peripheral equipment, tape drives, printers, basic operational programs, systems software, prewritten software, cash registers and single function fax machines are exempt.

NOTE: FIXED ASSETS EXPENSED FOR INCOME TAX PURPOSES – For Schedules B through H you must include those assets which may have been expensed for income tax purposes pursuant to Accelerated Cost Recovery provisions (via the Economic Tax Recovery Act of 1981), as well as those carried on your books in the asset accounts.

PROJECTS IN PROGRESS – If you have entered in a special asset account figures that represent money spent for projects in progress you must include these costs on the appropriate schedule. Personal property projects in progress are subject to property taxation in the same manner as real estate construction not fully completed as of January 1 of the current assessment year.

The procedure to complete these schedules is as follows:

1. **Column 2:** List the original installed costs on the line indicating year asset was acquired, for those assets in your possession as of January 1 last year.
2. **Column 3:** List, by year asset acquired, any additions, deletions, or transfers (from one account to another) of assets that have occurred between January 1 last year and January 1 of this year. For example, transferring of machinery or equipment during the last year from another municipality indicated by this return would represent an addition and should be listed on the line indicating the year the asset was originally acquired.
3. **Column 4:** Line by line, add/subtract any transfers, additions or deletions listed in column 3 to/from the original installed costs in column 2. Column 4 summarizes the original cost of assets as of January 1 this year, reflecting changes occurring in the past year (column 3). Note: Assets purchased during last year will always appear as additions on the first line of column 3 and again on the first line of column 4.
4. **Column 5:** Column 5 provides composite conversion index factors based on the composite useful life of each group of assets at the date of acquisition. The pre-printed index factors are actually indexed depreciation factors which incorporate depreciation on a 150% declining balance basis and a price level adjustment which varies with the age of the asset. Use the appropriate useful life "Yr." column that corresponds to your reported assets. Lives are not to be assigned to each and every asset, but rather a composite life for each group of assets.
5. **Column 6:** Multiply the total original installed costs in column 4 by the pre-printed conversion factors in column 5 to obtain the index net values for January 1 of this year requested in column 6.
