Use this publication in preparing your 2007 tax return. There are no substantive differences between the 2006 and 2007 versions of this publication.

I. INTRODUCTION

If your trade or business deductions for the year are more than your income for the year, you may have a Wisconsin net operating loss (NOL). This publication discusses the Wisconsin NOL for individuals, estates, and trusts.

You should compute your federal NOL before computing your Wisconsin NOL, because computation of the Wisconsin NOL is based on the federal NOL. For information on computing the federal NOL, obtain federal Publication 536, *Net Operating Losses*, and Form 1045, *Application for Tentative Refund*, from the Internal Revenue Service.

CAUTION

The information in this publication reflects the position of the Wisconsin Department of Revenue of laws enacted by the Wisconsin Legislature as of November 1, 2007. Laws enacted after this date, administrative rules, and court decisions may change the interpretations in this publication.

II. DEFINITIONS

Throughout this publication, the following definitions will apply:

- “NOL” means net operating loss.
- “Federal NOL” is your federal net operating loss as computed under the federal Internal Revenue Code in effect for Wisconsin tax purposes.

For example, the Wisconsin definition of the Internal Revenue Code does not include the federal provision allowing an exclusion for 50% of the gain from the sale or exchange of qualified small business stock. A taxpayer who was allowed an exclusion for 50% of the gain from the sale or exchange of qualified small business stock on a 2007 federal return was required to file Wisconsin Schedule I to include in income the entire gain on the sale or exchange of the qualified small business stock. The Schedule I adjustment is

considered when computing the “federal NOL” for Wisconsin.

In addition, the Internal Revenue Code permits an individual to make certain elections regarding the federal tax treatment of certain items. If you decide to make one election for federal purposes and a different election for Wisconsin purposes, the “federal NOL” means the federal NOL based on a federal return using the election chosen for Wisconsin tax purposes.

- “Loss year” means the year in which the NOL occurred.

III. DO YOU HAVE A FEDERAL NOL?

You must have a federal NOL in order to have a Wisconsin NOL. The federal NOL is the starting point for computing the Wisconsin NOL. Although Wisconsin law provides that the federal NOL is adjusted for certain addition and subtraction modifications, the modifications operate to increase or decrease the amount of NOL available for Wisconsin purposes. Modifications may not be used to create a Wisconsin NOL where no federal NOL exists.

A federal NOL, although not computed on the federal income tax return filed with the Internal Revenue Service, may result for Wisconsin purposes if the taxpayer is a part-year resident or nonresident of Wisconsin and a portion of federal adjusted gross income does not have situs in Wisconsin (that is, Wisconsin does not have jurisdiction to tax such income).

Example: Taxpayer is a nonresident of Wisconsin. Taxpayer’s federal adjusted gross income is as follows:

Wages (for services performed outside Wisconsin)	\$50,000
Interest income	10,000
Partnership income (loss)	<u>(5,000)</u>
Federal adjusted gross income	\$55,000

The only income having a Wisconsin situs is the partnership income (loss) which is from a Wisconsin partnership of which the taxpayer is a general partner. The partnership income (loss) is from a business located in Wisconsin. Therefore, the taxpayer’s Wisconsin adjusted gross income is the partnership loss of \$5,000. If the taxpayer computes federal adjusted gross income based on those income and deduction items which have a Wisconsin situs, the taxpayer has a federal NOL of \$5,000. Because the taxpayer has a “federal NOL,” the taxpayer is entitled to compute a Wisconsin NOL.

Exception: If a tax-option (S) corporation shareholder's allowable deduction for his or her pro rata share of the corporation's losses results in a loss on the shareholder's Wisconsin income tax return, the loss generally will be treated in the same manner as other Wisconsin net operating losses. However, unlike other Wisconsin net operating losses, Wisconsin tax-option (S) corporation losses may be claimed even if the shareholder has no federal net operating loss.

IV. HOW TO COMPUTE THE WISCONSIN NOL FOR THE LOSS YEAR

The Wisconsin NOL is the federal NOL with the following adjustments:

Adjustments —

- Itemized deductions allowable on federal Schedule A cannot be used in computing the Wisconsin NOL. Wisconsin law, however, does not prohibit the use of the federal standard deduction. Therefore, your allowable federal standard deduction may be used in computing the Wisconsin NOL. This is true even though you did not claim the standard deduction on your federal return.
- With the exception of the 60% capital gain exclusion, the federal NOL is adjusted for the various addition and subtraction modifications provided by Wisconsin law. For example, the federal NOL is adjusted to account for the addition modification for interest from state and municipal bonds and for the subtraction modification for interest from United States Government securities. See page 6 of the Appendix for a listing of the various addition and subtraction modifications which may affect your 2007 Wisconsin NOL.

If either of these adjustments applies to you, complete Worksheet 1 on page 7 in the Appendix to determine your Wisconsin NOL.

If you claimed the federal standard deduction on your federal return (line 40 of 2007 Form 1040) and your federal adjusted gross income (line 37 of 2007 Form 1040) is the same as your Wisconsin income (line 13 of 2007 Form 1), you do not need to make a separate NOL computation for Wisconsin. In this situation your federal NOL is also your Wisconsin NOL, and therefore, it is not necessary to complete Worksheet 1.

V. WHEN TO USE A WISCONSIN NOL

A Wisconsin NOL can be carried forward and offset against Wisconsin taxable income for up to 15 years. A Wisconsin NOL cannot be carried back to prior taxable years.

An NOL is carried to the first tax year after the loss year. If you do not use it up, carry over the unused part to the next year. Continue to carry over any unused part of the NOL until you complete the 15-year carryforward period. Any unused NOL remaining after the 15-year carryforward period cannot be deducted.

Example: You started your business in 2001 and had a \$42,000 Wisconsin NOL for the year. You begin using your Wisconsin NOL in 2002. You use your Wisconsin NOL as shown in the following chart.

Year	Amount of NOL Used	Unused Loss
2002	\$2,000	\$40,000
2003	3,000	37,000
2004	5,500	31,500
2005	9,000	22,500
2006	9,800	12,700
2007	8,700	4,000
2008	4,000	- 0 -

VI. HOW TO COMPUTE YOUR WISCONSIN NOL CARRYFORWARD TO 2007

If you computed a Wisconsin NOL for 2006, you may carry the entire NOL forward to 2007.

If you computed a Wisconsin NOL for a year prior to 2006 (but not before 1992), the amount carried forward to 2007 is the Wisconsin NOL computed for the year of the loss less the amount used in any year between the loss year and 2007. The amount used each year is equal to your "Wisconsin modified taxable income." (See "Wisconsin Modified Taxable Income" on page 3.)

Example: You computed a Wisconsin NOL for 2004 of \$20,000. Your Wisconsin modified taxable income was \$6,000 for 2005 and \$9,000 for 2006. The amount of Wisconsin NOL carried forward to 2007 is \$5,000 (\$20,000 less \$15,000). If you have a Wisconsin NOL carryforward from more than one year, the amount of your carryforward to 2007 is the total of all carryforwards. The NOLs are

used in the order in which they occurred, starting with the earliest.

Wisconsin Modified Taxable Income

Your Wisconsin modified taxable income is your Wisconsin income (for example, line 13 of 2007 Form 1) with the following adjustments:

- (1) You cannot claim an NOL deduction.
- (2) You cannot claim a capital gain exclusion.
- (3) You cannot claim a deduction for a net capital loss.
- (4) Wisconsin modified taxable income cannot be less than zero.

Use Worksheet 2 on page 9 in the Appendix to compute your Wisconsin modified taxable income.

You must keep accurate records to show (1) the amount of Wisconsin NOL for each loss year, (2) the amount of Wisconsin NOL used in each year to which it can be carried forward, and (3) the amount of Wisconsin NOL remaining to be carried forward to future years. See Worksheet 3 on page 10 of the Appendix. Worksheet 3 provides a record of this information.

Special Situations

Reduction of NOL when debt is cancelled. For federal tax purposes, if you exclude cancelled debt from income because it is cancelled in a bankruptcy case or during insolvency, or because the debt that is cancelled is qualified farm debt or qualified real property business debt, you must use the excluded amount to reduce certain of your tax attributes. One of the tax attributes that may have to be reduced is your federal NOL.

Wisconsin also requires the reduction of tax attributes when cancelled debt is excluded from income. Reduce any Wisconsin NOL for the tax year in which the debt cancellation takes place, or any Wisconsin NOL carryforward to that tax year.

For further information on this subject, obtain federal Publication 908, *Bankruptcy Tax Guide*, from the Internal Revenue Service.

Carryforward of NOL incurred while a nonresident. An NOL incurred while a nonresident of Wisconsin cannot be used to offset Wisconsin taxable income unless the NOL is attributable to Wisconsin business income and expenses.

VII. HOW TO REPORT A WISCONSIN NOL DEDUCTION

Once you have determined the amount of your Wisconsin NOL carryforward to 2007 (see Part VI), the next step is to determine the amount that may be deducted on your 2007 Wisconsin tax return. The deduction for a Wisconsin NOL carryforward may not be more than your Wisconsin taxable income as computed before any deduction for the NOL carryforward.

Use Worksheet 4 on page 12 of the Appendix to compute the amount of NOL carryforward that you can deduct on your 2007 Wisconsin income tax return (Form 1). See the instructions for the worksheet if you file Form 1NPR or if the taxpayer is an estate or trust.

Caution: It is important to complete Worksheet 4 to compute your allowable deduction for a Wisconsin NOL carryforward. Other items on your return may be affected if you claim more or less NOL carryforward than allowable. For example, Wisconsin income is the starting point for computing household income for farmland preservation credit. If you claim an incorrect amount of NOL, this will mean that your household income for farmland preservation credit will also be incorrect.

Enclose copies of your Wisconsin NOL worksheets (see Worksheets 1 through 4 in the Appendix) with your tax return for each year following the loss year until your NOL is completely used or can no longer be carried forward.

If you did not complete Worksheet 1 to compute your Wisconsin NOL because your Wisconsin NOL is the same as your federal NOL, enclose a statement showing how you computed your federal NOL (for example, a copy of Schedule A of federal Form 1045 can be used for this purpose).

VIII. CHANGES IN MARITAL AND FILING STATUS

Certain rules apply when your marital status or filing status is different in a loss year and a carryforward year. If you and your spouse are filing a joint return, the Wisconsin NOL carryforward of both you and your spouse may be used to compute the deduction for 2007 if you and your spouse were married to each other in the year of the loss. A married person carrying forward a loss incurred before marriage may apply the loss only against his or her own

income as computed under Wisconsin marital property law.

Note: For information on computing income under the Wisconsin marital property law, obtain Wisconsin Publication 109, *Tax Information for Married Persons Filing Separate Returns and Persons Divorced in 2007*, from any Department of Revenue office. You may also download this publication from the department’s website at www.revenue.wi.gov.

If you and your spouse file separate returns for 2007, but filed a joint return for the loss year, compute each spouse’s share of the joint Wisconsin NOL carryforward separately. For example, if a Wisconsin NOL which is computed for a year during which the spouses were married and filed a joint return is carried to a year after they are divorced, each spouse must compute his or her share of the joint Wisconsin NOL carryforward separately.

The chart on the bottom of this page summarizes when allocations of the Wisconsin NOL or income must be made.

To compute each spouse’s share of a joint Wisconsin NOL, complete the following steps:

- 1) Compute each spouse’s Wisconsin NOL for the loss year as if he or she filed a separate return.
- 2) If both spouses have a Wisconsin NOL, multiply the joint NOL by a fraction, the numerator of which is spouse A’s NOL computed in step (1) and the denominator of which is the total of the spouses’ NOLs computed in step (1). The result is spouse A’s share of the joint NOL. The remainder of the joint NOL is spouse B’s share.

If a portion of the joint Wisconsin NOL was used in any intervening year between the loss year and the year to which it is being carried, you must also compute each spouse’s share of the joint carryforward using the following steps:

- 1) Compute each spouse’s Wisconsin modified taxable income as if he or she filed a separate return.
- 2) Multiply the joint Wisconsin modified taxable income you used to compute the joint carryforward by a fraction, the numerator of which is spouse A’s modified taxable income computed in step (1) and the denominator of which is the total of the spouses’ modified taxable incomes computed in step (1). This is spouse A’s share of the joint Wisconsin modified taxable income.
- 3) Subtract the amount in step (2) from the joint Wisconsin modified taxable income. This is spouse B’s share of the joint Wisconsin modified taxable income.
- 4) Reduce the amount computed in step (3), but not below zero, by spouse B’s Wisconsin NOL deduction.
- 5) Add the amounts computed in steps (2) and (4).
- 6) Subtract the amount computed in step (5) from spouse A’s Wisconsin NOL deduction. This is spouse A’s share of the joint carryforward. The remainder of the joint carryforward is spouse B’s share.

For further information and examples on how to compute each spouse’s share of a joint NOL and joint modified taxable income, see “Change in Filing Status” in federal Publication 536, *Net Operating Losses*.

Status During Loss Year	Carryforward Is To Year In Which You Are:		
	Not Married	Married Filing Jointly	Married Filing Separately
Not Married (single or not married to the same spouse in loss year and carryforward year)	No allocation.	Spouse who incurred loss may apply NOL only against his/her income as computed under Wisconsin marital property law.	No allocation.
Married Filing Jointly	NOL allocated. Each spouse must figure his/her share of the joint NOL.	No allocation.	NOL allocated. Each spouse must figure his/her share of the joint NOL.
Married Filing Separate	No allocation.	No allocation.	No allocation.

IX. HOW LONG MUST NOL RECORDS BE KEPT?

Keep records that support an NOL deduction appearing on a return until the statute of limitations for the return expires. The statute of limitations defines the period during which the department may issue assessments or refunds relating to a particular return. Generally, this is four years from the date the return was filed. This may increase to six years in cases where the taxpayers reported less than 75% of the income that should have been reported. Returns filed before the due date are treated as filed on the due date.

Caution: Taxable years which are otherwise closed to adjustment may be audited by the department to determine the correctness of an NOL which is claimed as an offset to Wisconsin income in a year which is still open to adjustment. The loss carryforward may be verified since the deduction is being claimed in a year which is open to adjustment. Therefore, records for an NOL loss year and carryforward years must be kept until four years after the filing date of the last return on which the NOL carryforward is claimed.

Example: You incurred a Wisconsin NOL of \$100,000 on your 1993 Wisconsin income tax return. You used the NOL carryforward to offset income on your 1994 through 2005 Wisconsin income tax returns. Your 2005 Wisconsin return was filed April 15, 2006. You must keep your tax records for the 1993 through 2005 returns until April 15, 2010 (four years after the filing date of the last return on which the NOL carryforward was claimed).

X. ADDITIONAL INFORMATION

If you have questions about NOLs, write to the department in Madison or call or visit any department office.

APPENDIX

Modifications —

The modifications which affect the computation of the 2007 Wisconsin NOL include the following.

Additions

- State and municipal bond interest
- Farm loss limitations
- Federal net operating loss carryover
- Lump-sum distribution reported on federal Form 4972
- Farmland preservation credit not reported on the federal return
- Farmland tax relief credit not reported on the federal return
- Amount of computed development zones credit, manufacturer's sales tax credit, technology zone credit, dairy manufacturing facility investment credit, dairy and livestock farm investment credit, Internet equipment credit, and enterprise zone jobs credit
- Losses not allocable or apportionable to Wisconsin
- Gain on the sale of any property by a trust within two years of acquisition
- Wages paid to an entertainer or entertainment corporation unless the taxpayer complies with the withholding or surety bond requirements
- Adjustments for nonresidents and part-year residents
- Excess distributions from passive foreign investment companies

Subtractions

- Capital gain exclusion
- United States Government interest and dividends
- State income tax refund
- Unemployment compensation
- Disability income exclusion
- Medical care insurance deduction
- Certain retirement benefits
- Amounts from the U.S. Railroad Retirement Board
- Gain on the sale of small business stock
- Net income not allocated or apportioned to Wisconsin
- Recoveries of federal itemized deductions
- Other amounts not taxable by Wisconsin (for example, relocation assistance received by certain persons displaced by condemnation)
- Farm loss carryover

- State legislature allowance for expenses
- Recapture of development zones investment credits
- Social security benefits
- Adoption expenses
- Long-term care insurance
- Gain on disposition of business and farming assets to a related person
- Tuition and fee expense
- Repayment of income previously taxed
- Contributions to Wisconsin college savings program
- Organ donation expenses
- Income of members of the Reserves and National Guard called to active duty
- Manufacturer's sales tax credit adjustment

Additions or Subtractions

- Tax-option (S) corporation adjustments
- Partnership, trust, or estate adjustments
- Differences in depreciation or gain or loss on sale or other disposition of property acquired after December 31, 1964, where the federal basis is greater or less than the Wisconsin basis
- Differences in gain or loss on sale or other disposition of property which may not be depreciated or amortized and where the federal basis is greater or less than the Wisconsin basis
- Differences resulting from sale of partnership interest where increases or decreases were made to the federal basis of the partnership interest in taxable years prior to 1975, which resulted from partnership business or property located outside Wisconsin
- Differences in federal and Wisconsin reporting of marital property (community) income
- Amount recognized as a gain or loss if a surviving spouse and a distributee exchange interests in marital property under sec. 857.03, Wis. Stats.
- Limiting capital loss deduction to \$500
- Difference in federal and Wisconsin gain or loss on sale or other disposition of property due to difference in basis of property acquired from a decedent
- Difference in federal and Wisconsin treatment of waste treatment plants and pollution abatement equipment
- Difference in basis of residence sold where a prior residence was located outside Wisconsin

Worksheet 1 — 2007 Wisconsin NOL

1	Wisconsin income from 2007 Form 1, line 13. Estates and trusts, skip lines 1 and 2	1			
2	Allowable federal standard deduction	2	()
3	Combine lines 1 and 2. Estates and trusts, fill in your Wisconsin taxable income increased by the sum of the charitable deduction and income distribution deduction allowed on your federal tax return				3
	Note: If line 3 is zero or more, do not complete rest of worksheet. You do not have an NOL				
	Adjustments:				
4	Fill in Wisconsin capital gain exclusion				4
5	Estates and trusts, fill in as a positive number the exemption amount from your federal tax return				5
6	Total nonbusiness capital losses disregarding capital loss deduction limitation. Fill in as a positive number	6			
7	Total nonbusiness capital gains	7			
8	If line 6 is more than line 7, fill in difference; otherwise, fill in -0-	8			
9	If line 7 is more than line 6, fill in difference; otherwise, fill in -0-	9			
10	Nonbusiness deductions. Fill in as a positive number	10			
11	Nonbusiness income other than capital gains	11			
12	Add lines 9 and 11	12			
13	If line 10 is more than line 12, fill in difference; otherwise, fill in -0-				13
14	If line 12 is more than line 10, fill in difference; otherwise, fill in -0-. Do not fill in more than line 9	14			
15	Total business capital losses disregarding capital loss deduction limitation. Fill in as a positive number	15			
16	Total business capital gains disregarding capital gain exclusion	16			
17	Add lines 14 and 16	17			
18	If line 15 is more than line 17, fill in difference; otherwise, fill in -0-	18			
19	Add lines 8 and 18	19			
20	Fill in as a positive number the loss, if any, from line 16 of Schedule WD (line 15, column (b), of Schedule WD (Form 2) for estates and trusts). If you do not have a loss on that line, skip lines 20 through 22 and fill in on line 23 the amount from line 19	20			
21	Fill in as a positive number the loss from line 20 of Schedule WD (line 19 of Schedule WD (Form 2) for estates and trusts)	21			
22	Subtract line 21 from line 20	22			
23	Subtract line 22 from line 19. If zero or less, fill in -0-				23
24	Domestic production activities deduction allowable for Wisconsin				24
25	Net operating loss deduction for losses from other years. Fill in as a positive number				25
26	Net operating loss. Combine lines 3, 4, 5, 13, 23, 24 and 25. If the combined amount is less than zero, this is your Wisconsin NOL. If the combined amount is zero or more, you do not have an NOL				26

Instructions for Worksheet 1 — 2007 Wisconsin NOL

Note: Worksheet 1 is designed to use when computing your Wisconsin NOL based on your 2007 tax return. The worksheet can also be used to compute a Wisconsin NOL based on returns from 1992-2006 if comparable line references and the federal standard deduction applicable to each year are used.

Line 1 Fill in your Wisconsin income from 2007 Form 1, line 13. For individuals filing Form 1NPR (nonresident and part-year resident return), Wisconsin income is the amount from line 16, column B, of 2007 Form 1NPR, less the amount on line 31, column B, Form 1NPR.

Line 2 Fill in your allowable federal standard deduction regardless of whether you claimed the standard deduction on your federal return. Use the federal standard deduction allowable based on your federal filing status. For 2007, this generally is:

- Single — \$5,350.
- Married filing joint return or qualifying widow(er) — \$10,700.
- Married filing separate return — \$5,350.
- Head of household — \$7,850.

In some cases your allowable federal standard deduction may be more or less than the amount indicated above. See the instructions for your federal income tax return to determine your allowable standard deduction if:

- You can be claimed as a dependent on another person's return.
- You (and/or your spouse) are 65 years of age or older or legally blind.
- You are filing a tax return with a short tax year.
- You are a nonresident or dual-status alien during the year.

Line 4 Fill in your Wisconsin capital gain exclusion as a positive number. This will generally be the amount from line 18 of 2007 Schedule WD (line 17 of Schedule WD (Form 2) for estates and trusts). However, if your only capital gain or loss was a capital gain distribution reported on line 13 of federal Form 1040 and you did not file Wisconsin Schedule WD, fill in the amount of capital gain exclusion from line 10 of Form 1 (for Form 1NPR filers, this is the 60% exclusion claimed when completing line 7, column B).

Lines 6 through 23 The adjustments computed on these lines are required because:

- Nonbusiness deductions are allowed only to the extent of nonbusiness income.
- Capital losses are allowed only to the extent of capital gains.

To complete these lines, you will have to sort your capital gains and losses and your income and deduction items to de-

termine what portion is “business” and what portion is “nonbusiness.”

Nonbusiness income is income that is unrelated to your trade or business or your employment. For example, dividends, pensions and annuities, taxable social security, alimony, and interest on investments are nonbusiness income. Income you receive from your trade or business or employment such as salaries and wages, self-employment income, your share of business income from partnerships and tax-option (S) corporations, rental income, ordinary gain from the sale or disposition of business property, or unemployment compensation is business income.

Nonbusiness deductions are deductions that are unrelated to your trade or business. For example, alimony paid, the Wisconsin deduction for medical care insurance, contributions to an IRA, Keogh, or other retirement plan, and the federal standard deduction are nonbusiness deductions.

Caution: Do not include any federal itemized deductions as nonbusiness deductions.

See federal Publication 536, *Net Operating Losses*, or the instructions for federal Form 1045 for further information on items that are considered “business” or “nonbusiness.”

The amounts filled in on lines 6 through 23 should be the Wisconsin amounts which reflect the related addition and subtraction modifications from lines 2 through 4 and 6 through 11 of Form 1 (Schedule A of Form 2 for estates and trusts). Individuals who file Form 1NPR should use the amounts from column B of Form 1NPR when completing these lines.

Example: When computing your federal NOL, you determine that your total nonbusiness income consisted of \$800 of interest income. You show a subtraction on line 7 of your Form 1 of \$200 for interest from U.S. Government securities. The amount to fill in as nonbusiness income on line 11 of the worksheet is \$600 (\$800 less \$200 U.S. Government interest).

Line 24 You cannot take the domestic production activities deduction when figuring your NOL. Fill in on line 24 any domestic production activities deduction allowable for Wisconsin. For full-year residents of Wisconsin, this is the amount from line 35 of your federal Form 1040. For nonresidents and part-year residents of Wisconsin, this is the amount from line 29, column B, of Form 1NPR.

Line 25 If you claimed a Wisconsin NOL carryforward from other years on line 11 of Form 1 or line 15, column B of Form 1NPR (line 11, Schedule A of Form 2 for estates and trusts), fill in the amount of the NOL carryforward on line 25.

Line 26 If the amount on line 26 is less than zero, you have a Wisconsin NOL.

Worksheet 2 2007 Wisconsin Modified Taxable Income

1. Wisconsin income	1.	
2. NOL deduction.....	2.	
3. Capital gain exclusion.....	3.	
4. Capital loss deduction.....	4.	
5. Add lines 1 through 4.....	5.	
6. Wisconsin standard deduction allowable based on the amount on line 5.....	6.	
7. Subtract line 6 from line 5. If less than zero, fill in -0-	7.	
8. Deduction for exemptions.....	8.	
9. Subtract line 8 from line 7. If less than zero, fill in -0-. This is your 2007 Wisconsin modified taxable income	9.	

Instructions for Worksheet 2 — 2007 Wisconsin Modified Taxable Income

Note: These instructions refer to the 2007 Wisconsin return. The worksheet can be used for 1993-2006 by using comparable lines and the appropriate Wisconsin standard deduction for each year. The deduction for exemptions does not apply to taxable years beginning before January 1, 2000.

Line 1 Fill in your Wisconsin income from 2007 Form 1, line 13. For individuals filing Form 1NPR, Wisconsin income is the amount from line 16, column B, of 2007 Form 1NPR less the amount on line 31, column B. Estates and trusts fill in the amount from line 5 of Form 2.

Line 2 Fill in as a positive number the amount of NOL carry-forward deducted on your 2007 Wisconsin return.

Line 3 Fill in your Wisconsin capital gain exclusion as a positive number. This will generally be the amount from line 18 of 2007 Schedule WD (line 17 of Schedule WD (Form 2) for estates and trusts).

However, if your only capital gain or loss was a capital gain distribution reported on line 13 of federal Form 1040 and you did not file Wisconsin Schedule WD, fill in the amount of capital gain exclusion from line 10 of Form 1 (for Form 1NPR filers, this is the 60% exclusion claimed when completing line 7, column B).

Line 4 Fill in your Wisconsin capital loss deduction as a positive number. This is the amount from line 20 of your 2007 Schedule WD (line 19 of Schedule WD (Form 2) for estates and trusts).

Line 6 Fill in your Wisconsin standard deduction based on the amount on line 5 for your filing status. Full-year residents use the standard deduction table on page 41 of your 2007 Form 1 booklet. If you are filing Form 1NPR, use the following formula to determine the standard deduction to fill in on line 6.

Exception: If your federal income from line 33, column A of 2007 Form 1NPR is less than the amount on line 5 of Worksheet 2, do not use the following formula. The standard deduction to fill in on line 6 of Worksheet 2 is the amount from line 36c of your 2007 Form 1NPR.

$$\begin{array}{rcl} \text{Amount from line 5} & & \\ \text{of Worksheet 2} & & \\ \text{Federal income from} & \times & \text{Standard deduction} \\ \text{line 33 of 2007} & & \text{from line 36c of} \\ \text{Form 1NPR} & & \text{2007 Form 1NPR} \\ & & = \text{Standard} \\ & & \text{deduction to} \\ & & \text{fill in on} \\ & & \text{line 6} \end{array}$$

Estates and trusts fill in -0- on line 6.

Line 8 Fill in your deduction for exemptions. For full-year Wisconsin residents, this is the amount from line 17c of Form 1. If you are filing Form 1NPR, use the following formula to determine your deductions for exemptions.

Exception: If your federal income from line 33, column A of 2007 Form 1NPR is less than the amount on line 5 of Worksheet 2, do not use the following formula. The deduction for exemptions amount to fill in on line 8 of Worksheet 2 is the amount from line 38c of your 2007 Form 1NPR.

$$\begin{array}{rcl} \text{Amount from line 5} & & \\ \text{of Worksheet 2} & & \\ \text{Federal income from} & \times & \text{Deduction} \\ \text{line 33 of 2007} & & \text{for exemptions} \\ \text{Form 1NPR} & & \text{from line 38c of} \\ & & \text{2007 Form 1NPR} \\ & & = \text{Deduction} \\ & & \text{for} \\ & & \text{exemptions} \\ & & \text{to fill in} \\ & & \text{on line 8} \end{array}$$

Estates and trusts fill in -0- on line 8.

Line 9 This is your 2007 Wisconsin modified taxable income.

Worksheet 3 — Record of Wisconsin NOL Carryforward of Losses

NOL Loss Year	_____	_____	_____	_____	_____
Wisconsin NOL.....	\$	\$	\$	\$	\$
Loss used — 1st year	-	-	-	-	-
Carryforward to 2nd year.....	\$	\$	\$	\$	\$
Loss used — 2nd year.....	-	-	-	-	-

Carryforward to 15th year.....	\$	\$	\$	\$	\$
Loss used — 15th year.....	-	-	-	-	-
Unused loss (No carryforward allowed)	\$	\$	\$	\$	\$

Instructions for Worksheet 3 — Record of Wisconsin NOL Carryforward of Losses

Worksheet 3 allows you to record the amount of Wisconsin NOL used each year and the carryforward available.

Fill in the Wisconsin NOL loss year. For each loss year, fill in that column, working from the top of the column down. Use a separate column for each loss year.

Fill in as a positive number the amount of your Wisconsin NOL for each loss year.

Next fill in as a positive number the amount of NOL used in the first carryover year. The amount used each year is equal to your Wisconsin modified taxable income (see Worksheet 2 on page 9).

Subtract the loss used from the Wisconsin NOL. The result is the carryforward to the next year. For each succeeding year, continue to subtract the loss used from the carryforward until the loss is completely used or the loss can no longer be carried forward.

Caution: If no amount of a Wisconsin NOL carryforward is used in any year, fill in -0- as loss used for that year. You have not used a Wisconsin NOL carryforward if your modified taxable income (as computed on Worksheet 2) is zero.

If you determine you have a Wisconsin NOL carryforward to 2007, the amount of the carryforward should be entered on line 8 of Worksheet 4 when determining your 2007 allowable deduction for a Wisconsin NOL carryforward.

If you have a Wisconsin NOL carryforward from more than one loss year which can be applied to 2007, add all of your Wisconsin NOL carryforwards to 2007 together. Fill in the total on line 8 of Worksheet 4 when computing your 2007 allowable deduction for a Wisconsin NOL.

Worksheet 4 — Allowable Deduction for a Wisconsin NOL Carryforward

- | | | |
|--|----|--|
| 1. Amount from line 5 of 2007 Wisconsin Form 1..... | 1. | |
| 2. Subtractions from income from line 12 of Form 1. (Do not include any amount for the NOL carryforward.)..... | 2. | |
| 3. Wisconsin income before NOL. (Subtract line 2 from line 1.)..... | 3. | |
| 4. Standard deduction. (Compute the standard deduction on the income amount on line 3 using the 2007 Standard Deduction Table on page 41 in the 2007 Form 1 booklet and the column which corresponds to your filing status.) | 4. | |
| 5. Subtract line 4 from line 3. If less than zero, fill in -0- | 5. | |
| 6. Deduction for exemptions (see instructions)..... | 6. | |
| 7. Maximum deduction for NOL. (Subtract line 6 from line 5. If less than zero, fill in -0-) | 7. | |
| 8. Your Wisconsin NOL carryforward..... | 8. | |
| 9. Fill in the lesser of line 7 or line 8. This is your allowable Wisconsin NOL deduction. | 9. | |

Instructions for Worksheet 4 — Allowable Deduction for a Wisconsin NOL Carryforward

Line 1 If you are filing Form 1NPR, do not fill in any amount on this line. Instead, see the instructions for line 3. Estates and trusts fill in the amount from line 3 of 2007 Wisconsin Form 2.

Line 2 If you are filing Form 1NPR, do not fill in any amount on this line (see line 3 instructions). Estates and trusts fill in the amount from line 12, column 2 of Schedule A (Form 2). Do not include any amount of NOL in this figure.

Line 3 If you are filing Form 1NPR, fill in on line 3 the amount from line 16, column B of Form 1NPR (without any amount for the NOL), less the amount on line 31, column B, Form 1NPR.

Line 4 If you are filing Form 1NPR, use the following formula to compute the standard deduction to fill in on line 4.

Exception: If your federal income from line 33, column A of 2007 Form 1NPR is less than the amount on line 3 of Worksheet 4, do not use the following formula. The standard deduction to fill in on line 4 of Worksheet 4 is the standard deduction from the table in the Form 1NPR booklet based on your filing status and federal income.

$$\frac{\text{Amount from line 3 of Worksheet 4}}{\text{Federal income from line 33 of Form 1NPR}} \times \frac{\text{Standard deduction from table on page 37 in Form 1NPR booklet based on your filing status and federal income}}{\text{fill in on line 4}} = \text{Amount to fill in on line 4}$$

Estates and trusts do not fill in any amount on line 4.

Line 6 If you are filing Form 1, you will first have to complete line 17a-c of Form 1 before you can complete Worksheet 4. Fill in the amount from line 17c of Form 1 on line 6 of Worksheet 4.

If you are filing Form 1NPR, you will first have to complete line 38a-c of Form 1NPR. Then use the following formula to determine the amount to fill in on line 6 of Worksheet 4.

Exception: If your federal adjusted gross income from line 33, column A of 2007 Form 1NPR is less than the amount on line 3 of Worksheet 4, do not use the following formula. Fill in the amount from line 38c of Form 1NPR on line 6 of Worksheet 4.

$$\frac{\text{Amount from line 3 of Worksheet 4}}{\text{Federal adjusted gross income from line 33, column A of Form 1NPR}} \times \frac{\text{Deduction for exemptions from line 38c of 2007 Form 1NPR}}{\text{fill in on line 6 of Worksheet 4}} = \text{Amount to fill in on line 6 of Worksheet 4}$$

Estates and trusts do not fill in any amount on line 6.

Line 9 If you are filing Form 1, fill in the amount from line 9 of Worksheet 4 on line 11 of Form 1 as a positive number. If you are filing Form 1NPR, fill in the amount from line 9 of Worksheet 4 on line 15, column B of Form 1NPR as a negative number. Estates and trusts fill in the amount from line 9 of Worksheet 4 on line 11, column 2, of Schedule A of Form 2 as a positive number.

Illustrated Worksheet 1

The following example illustrates how to compute a Wisconsin NOL.

Example: In 2007, James Johnson started a retail business. He is single and claims a federal standard deduction of \$5,350. His 2007 federal adjusted gross income is as follows:

Wages	\$ 1,225
Interest on savings	425
Net long-term capital gain on sale of real estate used in business	1,900
Net short-term capital loss on sale of stock	(1,000)
Net loss from business	(5,000)
Ordinary loss on small business stock	<u>(800)</u>
Federal Adjusted Gross Income	\$(3,250)

Mr. Johnson's Wisconsin income is as follows:

Federal adjusted gross income	\$(3,250)
Capital gain exclusion (\$900 x 60%)	(540)
U.S. government interest	(200)
State and municipal bond interest	<u>600</u>
Wisconsin income	\$(3,390)

Mr. Johnson's 2007 Wisconsin NOL is \$2,675. The computation is shown on the filled-in Worksheet 1 on page 14.

Worksheet 1 — 2007 Wisconsin NOL

1	Wisconsin income from 2007 Form 1, line 13. Estates and trusts, skip lines 1 and 2.....	1	(3,390)		
2	Allowable federal standard deduction.....	2	(5,350)		
3	Combine lines 1 and 2. Estates and trusts, fill in your Wisconsin taxable income increased by the sum of the charitable deduction and income distribution deduction allowed on your federal tax return.....			3	(8,740)
Note: If line 3 is zero or more, do not complete rest of worksheet. You do not have an NOL					
Adjustments:					
4	Fill in Wisconsin capital gain exclusion.....			4	540
5	Estates and trusts, fill in as a positive number the exemption amount from your federal tax return.....			5	
6	Total nonbusiness capital losses disregarding capital loss deduction limitation. Fill in as a positive number.....	6	1,000		
7	Total nonbusiness capital gains.....	7	- 0 -		
8	If line 6 is more than line 7, fill in difference; otherwise, fill in -0-.....	8	1,000		
9	If line 7 is more than line 6, fill in difference; otherwise, fill in -0-.....	9	- 0 -		
10	Nonbusiness deductions. Fill in as a positive number.....	10	5,350		
11	Nonbusiness income other than capital gains.....	11	825		
12	Add lines 9 and 11.....	12	825		
13	If line 10 is more than line 12, fill in difference; otherwise, fill in -0-.....			13	4,525
14	If line 12 is more than line 10, fill in difference; otherwise, fill in -0-. Do not fill in more than line 9.....	14	- 0 -		
15	Total business capital losses disregarding capital loss deduction limitation. Fill in as a positive number.....	15	- 0 -		
16	Total business capital gains disregarding capital gain exclusion.....	16	1,900		
17	Add lines 14 and 16.....	17	1,900		
18	If line 15 is more than line 17, fill in difference; otherwise, fill in -0-.....	18	- 0 -		
19	Add lines 8 and 18.....	19	1,000		
20	Fill in as a positive number the loss, if any, from line 16 of Schedule WD (line 15, column (b), of Schedule WD (Form 2) for estates and trusts). If you do not have a loss on that line, skip lines 20 through 22 and fill in on line 23 the amount from line 19.....	20	- 0 -		
21	Fill in as a positive number the loss from line 20 of Schedule WD (line 19 of Schedule WD (Form 2) for estates and trusts).....	21	- 0 -		
22	Subtract line 21 from line 20.....	22	- 0 -		
23	Subtract line 22 from line 19. If zero or less, fill in -0-.....			23	1,000
24	Domestic production activities deduction allowable for Wisconsin.....			24	
25	Net operating loss deduction for losses from other years. Fill in as a positive number.....			25	- 0 -
26	Net operating loss. Combine lines 3, 4, 5, 13, 23, 24 and 25. If the combined amount is less than zero, this is your Wisconsin NOL. If the combined amount is zero or more, you do not have an NOL.....			26	(2,675)
