

Opening Adobe PDF Documents in Google Chrome

The Wisconsin Department of Revenue (DOR) uses the Adobe platform for maximum compatibility with our users' systems. Follow the steps below to download and open Adobe PDF documents on your computer using Google Chrome.

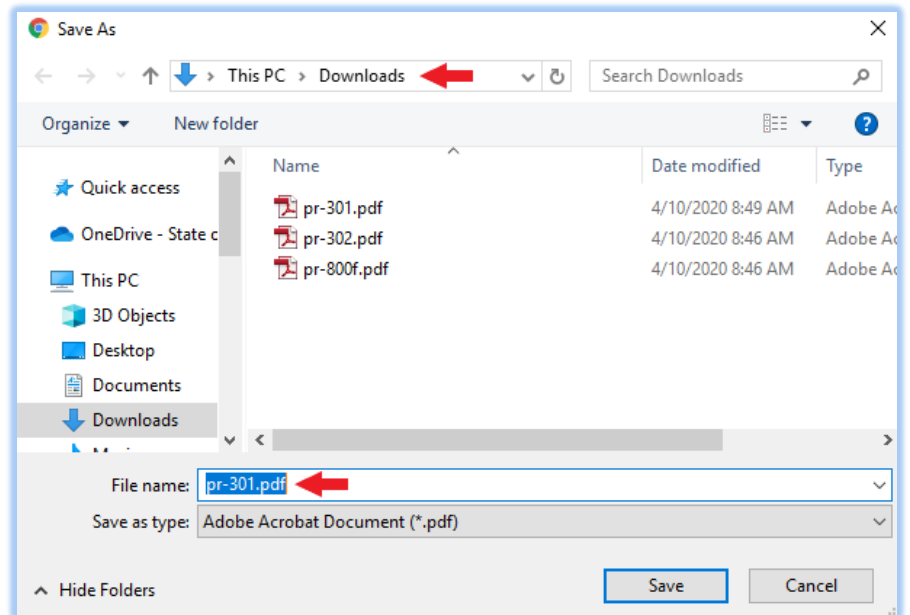

Step A

1. Right click the PDF file
2. Choose "Save link as..."

Step B

1. Save the file – choose the location on your computer where you would like to save the document
2. Verify the file name and location so you can easily find the file after saving it

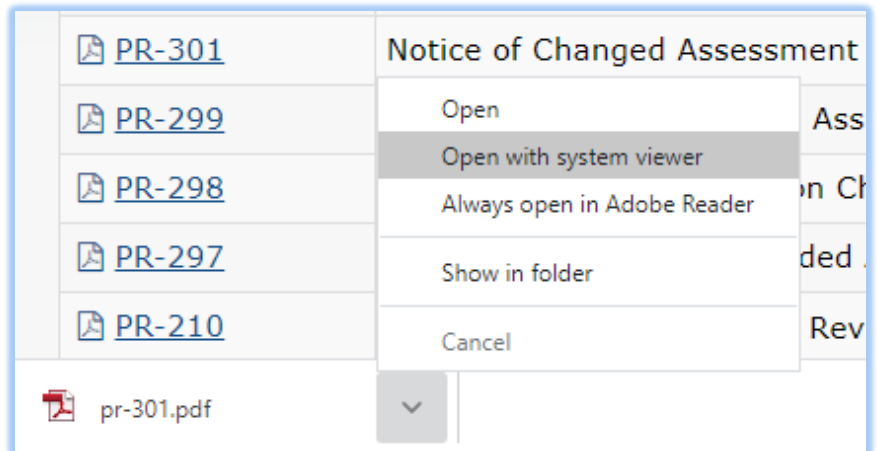

Step C

After saving the document, you will see a bar at the bottom of the screen with your downloaded file.

Click the arrow "v" to the right of the document name to view the options:

1. **Open** – to immediately open the file in Chrome (this may cause problems loading the PDF)
2. **Open with system viewer** – to open the file with your default PDF viewing program (ex: Adobe Reader)
3. **Always open in Adobe Reader** – to automatically open this PDF and all future PDF downloads in Adobe Reader
4. **Show in folder** – to open the folder containing the recently downloaded file. In your folder view, double click the file to open it.

Step D

If you chose options 2-4 in **Step C**, the saved file will open in your default PDF program (ex: Adobe Reader).
