

1999 TAX TABLE FOR FORM 1 FILERS

(Caution Not all taxpayers can use this table. See instructions below.)

IMPORTANT – The Wisconsin standard deduction has been built into this Tax Table. The table automatically allows most taxpayers the correct amount of standard deduction. However, certain taxpayers (see the three categories listed below) cannot use this table.

This Tax Table cannot be used by taxpayers who:

- Have more than \$250 of unearned income (for example, interest income) and can be claimed as a dependent on another person's income tax return
- Are filing a short period income tax return
- Are filing federal Form 4563 to claim an exclusion of income from sources within U.S. possessions

All other taxpayers must use this Tax Table.

If you cannot use this Tax Table, compute your tax by completing the "Special Tax Worksheet" which appears on page 15 of the instructions.

Example Mr. and Mrs. Smith are filing a joint return. Their Wisconsin income on line 13 of Form 1 is \$28,653. First they find the \$28,000 heading in the table. Then they find the \$28,600 – 28,700 income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the income line and the filing status line meet is \$1,331. This is the tax amount they must write on line 14 of their return.
