Allocation of Credit

The maximum amount of credit that may be awarded to all claimants in a taxable year is \$10,000,000.

If the total amount of hardware and software expenses paid in the calendar year by all claimants does not exceed \$20,000,000; the credit will be equal to 50 percent of the amount the applicant paid during the calendar year in which the information technology hardware and software was purchased.

If the total amount of hardware and software expenses paid in the calendar year by all claimants exceeds \$20,000,000; the total available credits of \$10,000,000 will be allocated to each certified applicant in proportion to the amount paid during the calendar year.

Example: Health Care Providers A, B, and C are certified to claim the electronic medical records credit for the following amounts paid in 2013 for certified hardware and software:

A	\$ 8,000,000
B	\$12,000,000
C	\$ 4,000,000
Total	\$24,000,000

The \$10,000,000 of available credits are allocated to A, B, and C based on their proportionate share of the total amount of \$24,000,000 paid.

Health Care Provider A is allocated a credit of \$3,333,333 computed as follows: (\$8,000,000 ÷ \$24,000,000) x \$10,000,000.

Health Care Provider B is allocated a credit of \$5,000,000 computed as follows: (\$12,000,000 ÷ \$24,000,000) x \$10,000,000.

Health Care Provider C is allocated a credit of \$1,666,667 computed as follows: (\$4,000,000 ÷ \$24,000,000) x \$10,000,000.

Fiscal Year Filers

The maximum amount of credit that may be awarded in a calendar year is \$10,000,000. For fiscal year filers, the amount to enter in sections B and C for qualified medical hardware and software purchased is the amount paid during the calendar year from January 1, 2013 through December 31, 2013, not the amount paid during the entity's fiscal

taxable year. The applicant must allocate the credit awarded for the calendar year and claim it in its respective taxable fiscal year.

Example: An applicant has a fiscal year beginning October 1, 2012 and ending on September 30, 2013. The applicant filed a certification request on a 2012 Schedule EM-C for the period of October 1, 2012 through December 31, 2012 by January 31, 2013.

By January 31, 2014, the applicant will file a 2013 Schedule EM-C for the amounts paid for information technology hardware and software from January 1, 2013 through December 31, 2013.

The applicant is awarded electronic medical record credits of \$10,000 and \$12,000 for the calendar years 2012 and 2013 respectively. The applicant paid the following amounts for certified information technology software and hardware:

<u>Date</u>	<u>Amount</u>
11/02/12	\$20,000
2/04/13	\$ 8,000
8/01/13	\$ 5,000
9/27/13	\$ 4,000
10/22/13	\$ 3,000
12/16/13	\$10,000

The department notified the applicant on February 28, 2013 of the credit that may be claimed based on the expenses paid in the 2012 calendar year. In this example the applicant claimed an electronic medical records credit of \$10,000.

For expenses paid in the 2013 calendar year, the department will notify the applicant of the allowable credit by February 28, 2014. In this example, applicant is eligible for a credit of up to \$15,000; however, the department has allocated a credit of \$12,000. Because the applicant has a fiscal taxable year that begins in 2012 and ends in 2013, an allocation is required in order to determine the amount of credit that may be claimed in the 2012 and 2013 taxable years. The credit for the 2013 calendar year must be allocated to the applicants fiscal year based on a ratio consisting of the amounts paid during the calendar year that falls within the dates of the taxpayers fiscal year divided by the total amounts paid in the 2013 calendar year,

with the result multiplied by the applicant's credit awarded for the 2013 calendar year.

2012 Calendar Year Certification

$$\frac{\$20,000}{\$20,000} \times \$10,000 = \$10,000$$

2013 Calendar Year Certification

Computation for 2012 fiscal year:

$$\frac{\$17,000^1}{\$30,000^2} \times \$12,000 = \$6,800$$

The amount of \$16,800 (\$10,000 + \$6,800) is entered on line 1 of the 2012 Schedule EM.

¹ \$8,000+\$5,000+\$4,000
² \$8,000+\$5,000+\$4,000+\$3,000+\$10,000

Computation for 2013 fiscal year:

$$\frac{\$13,000^3}{\$30,000^4} \times \$12,000 = \$5,200$$

Enter this amount on line 1 of the 2013 Schedule EM.

³ \$3,000+\$10,000
⁴ \$8,000+\$5,000+\$4,000+\$3,000+\$10,000
