* Should agree with line 15 of Final Statement of Assessments.

** Should agree with total Manufacturing Assessment Roll.

*** Should agree with line 15 of Final Statement of Assessments.

** Should agree with total manufacturing assessment roll.

After multiplying the combined rates times the assessed values and adding together the resulting general property taxes for each mill rate area this total should agree with, or be very close to the total of Column 3, Line F on the mill rate worksheet. If not, there is probably an error which must be corrected before proceeding with the calculating and entry of any individual’s taxes in the rolls.
