

WISCONSIN SCHOOL DISTRICT STATISTICS FOR TAX YEAR 2008  
SUMMARY BY SCHOOL DISTRICT

This report summarizes, by school district, income tax information of the tax filers who indicated on their 2008 income tax returns that they resided in a given school district. The report includes 2008 income tax returns received by October 15, 2009.

Care should be exercised in using these data, since there are several problems inherent in the use of income tax data for measuring the ability to pay of school district property owners. First, the school district income information does not include the income of individuals who do not file tax returns because their income falls below the minimum filing requirements or because they do not have tax refunds.

Second, the income shown on the tax return excludes other sources of income that are either fully or partially exempt from tax (e.g. social security, public assistance, unemployment compensation). Thus, the income data from tax returns provided for school districts may understate the income of some districts.

Third, the income information does not include the income of nonresident property owners in the district, nor does it include the income of corporations located in the school districts.

The following is an explanation of the document's column headings.

<u>COLUMN HEADING</u>	<u>EXPLANATION</u>
School District Name	Name of school district as used by the Department of Public Instruction
District Number	Code number of school district as used by the Department of Public Instruction.
