

WISCONSIN SCHOOL DISTRICT STATISTICS FOR TAX YEAR 2012
SUMMARY BY SCHOOL DISTRICT

This report summarizes, by school district, income tax information of the tax filers who indicated on their 2012 income tax returns that they resided in a given school district. The report includes 2012 income tax returns received by October 15, 2013.

The data in this report does not necessarily reflect the wealth or ability to pay of property owners of a school district due to several inherent problems.

- The school district income information does not include the income of individuals who do not file tax returns because their income falls below the minimum filing requirements or because they do not have tax refunds.
- The income shown on the tax return excludes other sources of income that are either fully or partially exempt from tax (e.g. social security, public assistance; unemployment compensation). Thus, the income data from tax returns provided for school districts may understate the income of some districts.
- The income information includes only income of Wisconsin residents living in the district. Income of nonresident property owners and income of corporations located in the school districts are not included.

The following is an explanation of the document's column headings.

<u>COLUMN HEADING</u>	<u>EXPLANATION</u>
