

Wisconsin School District Statistics for Tax Year 2021

This report summarizes, by school district, income tax information of the tax filers who indicated on their 2021 income tax returns that they resided in a given school district. The report includes 2021 income tax returns received by October 15, 2022.

The data in this report does not necessarily reflect the wealth or ability to pay of property owners of a school district due to several inherent problems.

- The school district income information does not include the income of individuals who do not file tax returns because their income falls below the minimum filing requirements or because they do not have tax refunds.
- The income shown on the tax return excludes other sources of income that are either fully or partially exempt from tax (e.g. social security, public assistance; unemployment compensation). Thus, the income data from tax returns provided for school districts may understate the income of some districts.
- The income information includes only income of Wisconsin residents living in the district. Income of nonresident property owners and income of corporations located in the school districts are not included.
- Taxpayers with multiple residences in the state only designate one school district on their returns, which fully assigns their income to one of their residences and none to their other(s).
- Taxpayers may make mistakes, either clerical or factual, when self-determining which school district code to report on their return, which results in income being incorrectly assigned to one district rather than another.

The following is an explanation of the document's column headings.
