

STATE AND LOCAL SALES AND USE TAX REPORT: TAX REVENUE FROM SALES IN CALENDAR YEAR 2018

This report shows sales and use tax collections by North American Industry Classification System (NAICS) code for the following tax types:

1. State sales and use taxes.
2. Baseball park district sales and use taxes.
3. County sales and use taxes by county.

The sales and use tax data in this report reflect sales that occurred in calendar year 2018 and were obtained from sales and use tax returns filed with the Wisconsin Department of Revenue (DOR). Certain amounts collected or remitted through means other than the sales and use tax returns are not included in this report. In particular, the amounts shown do not include collections from occasional sales, audits, interest, or penalties.

In each case where the number of filers is presented, the figure is limited to the number of filers with taxable sales in excess of \$10,000. However, the tax amount listed provides information for all filers. The number of filers and total taxes are suppressed for NAICS classifications where the number of filers is 10 or fewer. Additional information is suppressed where confidentiality concerns require. The presented number of filers above the \$10,000 threshold and total tax figures are not affected by suppressing the underlying detail. In general, tables in this report include two-digit NAICS information, even if certain figures must be suppressed. Three-digit information appears only where disclosure standards permit at least some information to be presented.

The Executive Office of the President, Office of Management and Budget, first published NAICS in 1997 to replace and update the 1987 Standard Industrial Classification (SIC) Manual. NAICS is designed for federal data collection, statistical, and analytical purposes. NAICS covers the entire economy, classifying activities into 20 sectors and 1,057 industries.¹

Upon registering for Wisconsin business taxes, registrants self-select a NAICS code that best describes their primary business activities. The NAICS codes used by DOR are included in the instructions for the Business Tax Registration form (form BTR-101).²

Business may evolve over time such that another NAICS code would be more accurate than the NAICS code originally selected. These codes are updated based on businesses registration forms, but caution should be exercised in using the data as a measure of economic activity for a particular NAICS code. In 2017, the Department of Revenue required state tax filers to update their NAICS code. As a result it is not advisable to compare industry subtotals across 2017 and 2018.

Table 1 shows the total sales and use tax rate in each county as of December 2018 and the

¹ The U.S. Bureau of the Census publishes information about NAICS, including links to definitions of industry codes, on its website at <http://www.census.gov/epcd/www/naics.html>.

² The form and instructions are available online at <http://www.dor.state.wi.us/forms/sales/index.html>.

date the tax was imposed. Figure 1 is a map showing the year county sales and use taxes were imposed as of December 2018. Counties are color-coded to show the period in which they imposed their taxes.

As of December 2018:

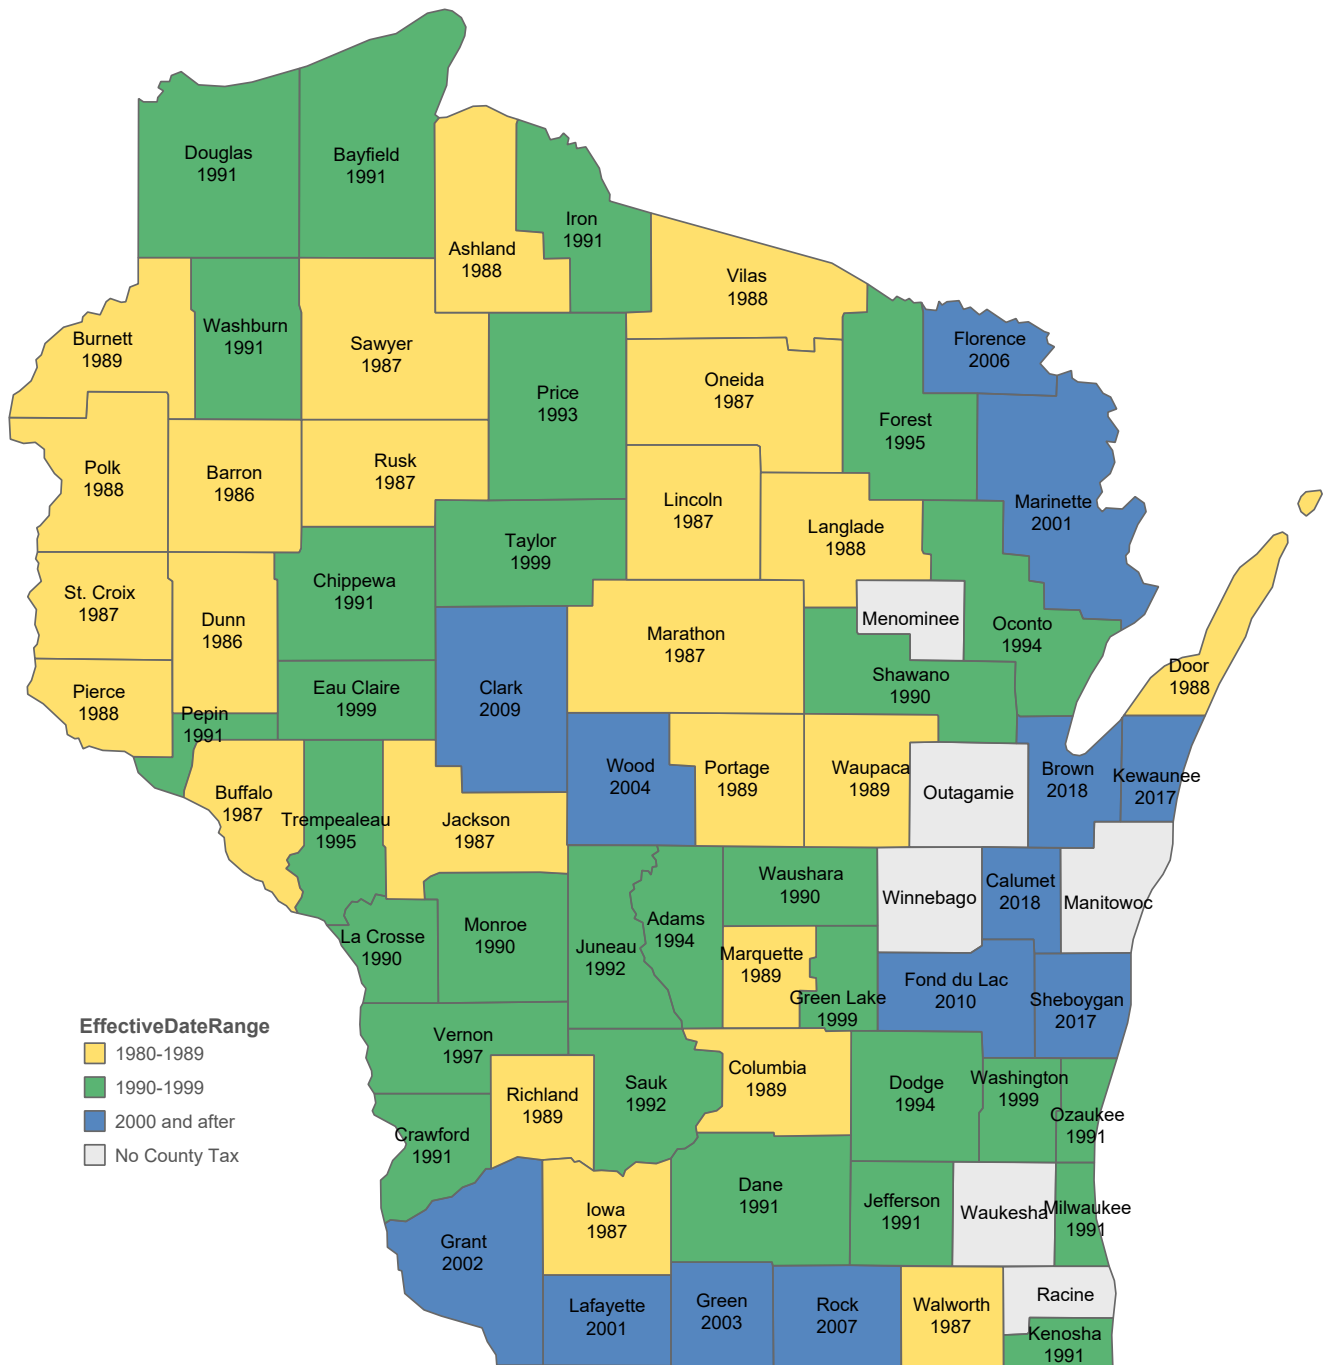

- 4 counties had a total rate of 5.0% (5.0% state sales and use tax)
- 2 counties had a total rate of 5.1% (5.0% state and 0.1% baseball district sales and use tax).
- 63 counties had a total rate of 5.5% (5.0% state and 0.5% county sales and use tax).
- 3 counties had a total rate of 5.6% (5.0% state, 0.1% baseball park district, and 0.5% county sales and use tax).

BB indicates 0.1% baseball park tax imposed 1/1/96.

MAP

1. STATE SALES AND USE TAX BY NAICS CODE, 2018

In 2018, taxable transactions generated state sales and use taxes of \$5,336,321,198, as reported by filers. Sales and use taxes fall primarily on tangible personal property sold to final consumers. Businesses classified as retailers (NAICS 44-45) generated 46.1% of state sales and use taxes in 2018.

Table 2 shows the amount of state sales and use tax in 2018 by NAICS code. The data were obtained from sales and use tax returns filed with the Wisconsin Department of Revenue. The number of filers displayed in the table is limited to filers with taxable sales in excess \$10,000. The number of filers that reported taxable sales exceeding \$10,000 in 2018 was 86,242 (The total number of filers, including those under \$10,000 in taxable sales, was 184,080). The sales and use tax amounts in the table include all filers. The number of filers may not represent the number of businesses in a particular industry as a single filer may have multiple locations.

"State Sales and Use Tax" is the amount of state sales and use tax reported by the taxpayer. It does not include penalties, interest, or the reduction for the "retailer's discount" which a seller of taxable goods or services is permitted to retain for collecting and remitting the tax. The retailer's discount is the greater of 0.5% of the seller's sales tax liability or \$10 per return for returns filed timely. As of October 1, 2009, the retailer's discount is limited to \$1,000 per reporting period.

Occasional sales are also excluded from the figures in Table 2. Occasional sales include sales by one individual to another of automobiles, mobile homes 45 feet or less in length, trailers, semi-trailers, and other registered motor vehicles. Use tax is collected when these vehicles are registered with the state.

2. BASEBALL PARK DISTRICT SALES AND USE TAX, 2018

1995 Wisconsin Act 56 authorized the baseball park district sales and use tax. The Act imposed a 0.1% sales and use tax in the five southeast counties of Milwaukee, Ozaukee, Racine, Washington, and Waukesha as of January 1, 1996. The state (DOR) collects the tax on behalf of the Southeast Wisconsin Professional Baseball Park and retains 1.5% of tax collections to cover administrative costs. Net tax collections are distributed to the district authority to fund construction and maintenance of Miller Park.

In 2018, taxable transactions generated baseball park district sales and use taxes of \$31,874,354. Table 3 shows the number of filers and baseball district sales and use taxes in 2018 by NAICS code. The tax amount reported does not include penalties, interest, occasional sales, or the reduction for the retailer's discount.

The number of filers shown is the number of sellers in a NAICS code that filed a sales tax return in 2018 and reported taxable sales exceeding \$10,000. While this \$10,000 threshold excludes certain smaller scale entities located in the district, it allows the exclusion, from the count of filers, many entities that may be making limited sales into the district but are not located within the district. Without this threshold, for example, a retailer without a physical presence within the district would be listed as a filer so long as they engaged in at least one transaction sourced to a location within the district. To limit the filer count to those with a more significant level of taxable sales in the district, whether physically located within the district or not, the number of filers excludes businesses with taxable sales less than \$10,000. The sales and use tax amounts, however, includes all filers.

Taxpayers do not report baseball park district tax data by county.

Comparison to Baseball Park District Sales and Use Tax Distributions

The amounts distributed to the district during 2018 differ from the amounts in Table 3 due to the retailer's discount, state administrative fee, interest, penalties, occasional sales, and the timing of both sales tax returns and distributions to the district. Generally, sales tax distributions reflect the previous month's collections. Distributions are also adjusted to reflect audit adjustments and refunds.

3. COUNTY SALES AND USE TAX BY NAICS CODE, 2018

Counties are authorized to impose a 0.5% county sales and use tax. Table 4 presents total county sales and use tax information by NAICS code for the 63 counties that imposed the tax in 2018. The state (DOR) collects the tax on behalf of the counties and retains 1.75% of tax collections to cover administrative costs.

Transactions in calendar year 2018 generated county sales and use taxes of \$421,453,190. This is the amount of county sales and use tax reported by sellers. It does not include penalties, interest, occasional sales, or the reduction for the retailer's discount.

County Sales and Use Tax by County

Table 5 presents county sales and use tax information by NAICS code by county. The number of filers displayed for each county is the number of sellers/retailers in a NAICS code that filed a sales tax return in 2018 and reported taxable sales exceeding \$10,000. A business that remits sales and use tax in Wisconsin would show up as a filer in any county in which the retailer engaged in a transaction. For example, a retailer without a physical presence in Dane County qualifies as a filer for Dane County so long as it engaged in at least one transaction sourced to Dane County. If this retailer reported taxable sales in the county in excess of \$10,000, it would be included in the count of filers for Dane County in Table 5 that exceed this threshold.

Comparison to County Sales and Use Tax Distributions

The amounts distributed to counties during 2018 differ from the amounts in Table 5 due to the retailer's discount, state administrative fee, interest, penalties, occasional sales, and the timing of both sales tax returns and distributions to the district. The distributions also reflect audit adjustments and refunds.
