

## STATE AND LOCAL SALES AND USE TAX REPORT: TAX REVENUE FROM SALES IN CALENDAR YEAR 2019

This report shows sales and use tax collections by North American Industry Classification System (NAICS) code for the following tax types:

1. State sales and use taxes.
2. County sales and use taxes by county.
3. Baseball park district sales and use taxes.

The sales and use tax data in this report reflect sales that occurred in calendar year 2019 and were obtained from sales and use tax returns filed with the Wisconsin Department of Revenue (DOR). Certain amounts collected or remitted through means other than the sales and use tax returns are not included in this report. In particular, the amounts shown do not include collections from occasional sales, audits, interest, or penalties.

In each case where the number of filers is presented, the figure is limited to the number of filers with taxable sales in excess of \$10,000. However, the tax amount listed provides information for all filers. The number of filers and total taxes are suppressed for NAICS classifications where the number of filers is 10 or fewer. Additional information is suppressed where confidentiality concerns require. The presented number of filers above the \$10,000 threshold and total tax figures are not affected by suppressing the underlying detail. In general, tables in this report include two-digit NAICS information, even if certain figures must be suppressed. Three-digit information appears only where disclosure standards permit at least some information to be presented.

The Executive Office of the President, Office of Management and Budget, first published NAICS in 1997 to replace and update the 1987 Standard Industrial Classification (SIC) Manual. NAICS is designed for federal data collection, statistical, and analytical purposes. NAICS covers the entire economy, classifying activities into 20 sectors and 1,057 industries.<sup>1</sup>

Upon registering for Wisconsin business taxes, registrants self-select a NAICS code that best describes their primary business activities. The NAICS codes used by DOR are included in the instructions for the Business Tax Registration form (form BTR-101).<sup>2</sup>

Business may evolve over time such that another NAICS code would be more accurate than the NAICS code originally selected. These codes are updated based on businesses registration forms, but caution should be exercised in using the data as a measure of economic activity for a particular NAICS code. In 2017, the Department of Revenue required state tax filers to update their NAICS code. As a result, it is not advisable to compare industry subtotals across 2017 and 2019.

---

<sup>1</sup> The U.S. Bureau of the Census publishes information about NAICS, including links to definitions of industry codes, on its website at <http://www.census.gov/epcd/www/naics.html>.

<sup>2</sup> The form and instructions are available online at <http://www.dor.state.wi.us/forms/sales/index.html>.
