On the back of this notice, we included information needed to estimate your district's 2017 state exempt computer aid amount. You must include this estimated state aid payment as a revenue in your 2017 budget to determine your required 2016 property tax levy.

Required Information:

2016 equalized value of exempt computers in your district	\$ <u>84,296,000</u>
2016 equalized value of your district (TID Out)	\$ <u>22,604,603,466</u>
2016 equalized value (TID Out) plus exempt computer value	\$ <u>22,688,899,466</u>

If you have questions, contact us at lgs@wisconsin.gov.

Sincerely,

Valeah Foy
Director
Bureau of Local Government Services

If you follow these steps and use the Exempt Computer Aid Worksheet below, your estimated payment will be the same amount DOR calculates for your July 2017 payment.

1. Complete your district's regular budget procedures and calculate a proposed property tax levy without consideration of any state exempt computer aid as a budget revenue
2. Divide the proposed property tax levy (from Step 1) by the sum of your district's 2016 equalized value (TID Out) plus your exempt computer value. Calculate this rate out to at least nine decimal places.
3. Multiply the rate (from Step 2) by the value of your exempt computers. This is the estimated amount of your state exempt computer aid for your 2017 budget.
4. Include the amount of computer aid as a revenue in your 2017 budget and recalculate your district's required property tax levy. Your required tax levy should equal the proposed levy (from Step 1) minus your amount of estimated aid for exempt computers.

2. Divide the proposed property tax levy (from Step 1) by the sum of your district's 2016 equalized value (TID Out) plus your exempt computer value. Calculate this rate out to at least nine decimal places.
