

Caution:

This revised version of the 2010 Schedule I instructions was placed on the Internet on December 28, 2010. The instructions have been revised to include additional changes to federal law that must be considered when completing Schedule I. These law changes were made by Public Law 111-312 (the Tax Relief Act of 2010), enacted December 17, 2010.

In addition, the instructions were revised on January 25, 2011, to add Item 85 relating to the deduction for health insurance premiums paid by employers who claim the federal credit for health insurance premiums paid by small employers.

Instructions for Completing Wisconsin Schedule I – 2010

INTRODUCTION – Generally, the Wisconsin Statutes require that the computation of taxable income on the 2010 Wisconsin income tax return is to be based on the Internal Revenue Code enacted as of December 31, 2008. Changes made to the Internal Revenue Code enacted after December 31, 2008, do not apply for Wisconsin income tax purposes.

Wisconsin law also provides that certain provisions of federal law do not apply for Wisconsin purposes (even though the provisions were enacted into federal law prior to December 31, 2008). Some of those provisions are:

- Domestic production activities deduction
- Exclusion for small business stock
- Health savings accounts
- Installment method for accrual basis taxpayers

As a result, certain income and deduction items may be different for Wisconsin and federal purposes. Any difference must be adjusted on this schedule. A description of items requiring adjustment can be found under **ITEMS REQUIRING ADJUSTMENT**.

WHO MUST FILE – If the computation of your federal adjusted gross income or itemized deductions reflects any of the differences in Wisconsin and federal law for 2010, you must complete this schedule and attach it to your Wisconsin income tax return, Form 1 or Form 1NPR.

To the extent Schedule I adjustments in a prior year affect income or expense items in 2010 (for example, the special 50% depreciation allowance was not allowed to be claimed on property placed in service after December 31, 2009), you must also make adjustments on Schedule I for 2010.

It also may be necessary to prepare a 2010 Schedule I to adjust the amount of gain or loss reportable from sales of certain assets during 2010. See the instructions for lines 2 and 3 under **SPECIFIC INSTRUCTIONS**.

PARTNERS, BENEFICIARIES OF ESTATES AND TRUSTS, AND SHAREHOLDERS OF TAX-OPTION (S) CORPORATIONS – The income and deduction items computed on the Wisconsin returns of partnerships, estates and trusts, and tax-option (S) corporations may also be affected by the differences between Wisconsin and federal law for 2010. As a result, the distributive shares of these items which are reportable on the individual Wisconsin income tax returns of the respective partners, beneficiaries, and shareholders may differ for Wisconsin and federal income tax purposes. Such partners, beneficiaries, and shareholders should receive notification from the partnership, estate or trust, or tax-option (S) corporation of the amounts reportable for Wisconsin purposes. By comparing the amounts reportable for Wisconsin and federal purposes, the partner, beneficiary, or shareholder should determine the items which differ and make the appropriate adjustments.

SPECIFIC INSTRUCTIONS

(Numbered to correspond with the line numbers on Schedule I)

INSTRUCTIONS FOR PART I

1. Fill in your 2010 federal adjusted gross income from line 37 of your federal Form 1040.
- 2 & 3. If you sold or otherwise disposed of certain property during 2010, the gain or loss reportable from such sale may differ for Wisconsin and federal purposes due to Schedule I adjustments made in the current year or a prior year. This would occur, for example, when different rates of depreciation or amortization were allowable for Wisconsin and federal purposes in 1975 or thereafter.

To properly report such gain or loss on your Wisconsin return, you must first remove all gain or loss included in your federal adjusted gross income. This is done by filling in line 2a or 2b and/or line 3a or 3b. Then fill in the revised gain or loss on line 2c and/or line 3c. Enclose a revised federal Schedule D, Form 4684, or Form 4797 marked “Revised for Wisconsin purposes” with Form 1 or Form 1NPR.

Do not complete lines 2 and 3 if you did not make Schedule I adjustments in the current year or a prior year for the property you sold or otherwise disposed of during 2010.

5. Complete line 5 to make all other adjustments needed to convert 2010 federal adjusted gross income to the amount allowable for Wisconsin. See the listing under Section A of **ITEMS REQUIRING ADJUSTMENT**.

When an adjustment is made on line 2, 3, or 5, this may affect other amounts which must then also be adjusted. For example, the amount of social security includable in federal adjusted gross income may be affected when an adjustment is made to an income item. The adjustment to social security includable in federal adjusted gross income should be reported on line 5.

When completing line 5, if you are adjusting an expense item (for example, depreciation or amounts claimed as Adjustments to Income on lines 23 through 35 of federal Form 1040), fill in the amounts in Col. I and Col. II as negative numbers. Put parentheses around the amounts to show negative numbers.

If you are adjusting an income item, fill in the amounts in Col. I and Col. II as positive numbers.

Complete Col. III as follows:

- If the amounts in Col. I and Col. II are positive numbers (or one number is a positive number and the other number is zero) and the amount in Col. II is larger than the amount in Col. I, subtract Col. I from Col. II. Fill in the difference in Col. III.

- If the amounts in Col. I and Col. II are positive numbers (or one number is a positive number and the other number is zero) and the amount in Col. I is larger than the amount in Col. II, subtract Col. II from Col. I. Fill in the difference as a negative number in Col. III.
- If the amounts in Col. I and Col. II are negative numbers (or one number is a negative number and the other number is zero) and the amount in Col. II is larger than the amount in Col. I, subtract Col. I from Col. II. Fill in the difference as a negative number in Col. III. Treat both amounts as if they were positive numbers when figuring which amount is larger and when subtracting the amounts in Col. I and Col. II.
- If the amounts in Col. I and Col. II are negative numbers (or one number is a negative number and the other number is zero) and the amount in Col. I is larger than the amount in Col. II, subtract Col. II from Col. I. Fill in the difference as a positive number in Col. III. Treat both amounts as if they were positive numbers when figuring which amount is larger and when subtracting the amounts in Col. I and Col. II.

6. The amount on line 6 is your recomputed federal adjusted gross income based on the Internal Revenue Code in effect for Wisconsin for 2010. This amount is the starting point for determining Wisconsin taxable income on Form 1.

INSTRUCTIONS FOR PART II

7. Whenever federal adjusted gross income has been increased or decreased in Part I of Schedule I, itemized deductions which are computed using federal adjusted gross income (for example, medical expenses and charitable contributions) may require adjustment. The deductible amounts of any such items used to compute the Wisconsin itemized deduction credit must be determined by using the federal adjusted gross income computed on line 6 of Part I.

See the listing under Section B of ITEMS REQUIRING ADJUSTMENT for other itemized deductions that require adjustment.
