

The Wisconsin Department of Revenue (DOR) Manufacturing & Utility Bureau classifies manufacturing property for assessment purposes.

Qualifying as a manufacturer

- If you feel the business activity taking place is manufacturing, you must contact the Manufacturing & Utility Bureau District Office in your area in writing, by July 1 of the assessment year
- DOR may request you do one of the following:
 - Write a letter explaining your operation
 - Complete the Questionnaire for Potential Manufacturers (Form PA-780)
 - o Schedule an appointment with DOR to discuss your operation

Note: DOR reviews building permits and newspaper/magazine articles, and contacts local assessors and potential businesses to discover new manufacturers.

DOR's classification decision

- DOR will let you know the decision regarding your classification filed by the July 1 deadline on or before December 31 of that year.
- If you disagree with your classification, you must file an appeal no later than 60 days after the Notice date. For more information on appeals, contact the Manufacturing & Utility Bureau District Office in your area.

Definition under state law

Manufacturing is the assembling, processing, fabricating, making, or milling of tangible personal property for profit. The Standard Industrial Classification Manual (SIC Manual), 1987 Edition, published by the U.S. Office of Management and Budget plays a major role in defining what activities qualify as manufacturing for property tax purposes. (sec. 70.995(2), Wis. Stats.)

Property assessment

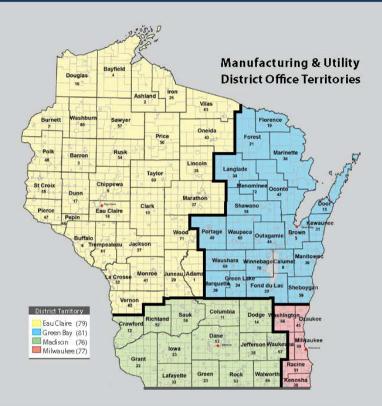

This chart explains how business activity affects your property assessment.

Real Property	Business Activity
 When you use real property for both manufacturing and another purpose, DOR determines the predominant use (more than 50%) of your real property. If the property is predominantly used for: Manufacturing – DOR assesses the real property All property owned by, or leased to, a business classified by DOR as manufacturing DOR assesses all property of the manufacturing establishment, except property not contiguous with, or located within 1,000 feet of, the property where the production process occurs Non-manufacturing – real property is locally assessed 	 To be classified as manufacturing: DOR's Manufacturing & Utility Bureau District Office in your area must classify your business activity as manufacturing You must complete the Questionnaire for Potential Manufacturers Form PA-780 (now available in MTA) Business activity only manufacturing classification: If your real property is not classified as manufacturing, DOR's Manufacturing & Utility Bureau may still assess your business activity as manufacturing Note: A sales and use tax exemption for equipment used to produce a product does not automatically classify you as a manufacturer for property tax purposes

Wisconsin Manufacturing and Agriculture Credit: Can be claimed starting in 2013 for qualified income derived from real or personal property classified as manufacturing or agricultural property in Wisconsin. For more information, visit the Manufacturing and Agriculture Credit <u>Common Questions</u> on our website, or contact DOR's Income, Sales and Excise Division at (608) 266-2772.

For more information, review the *Guide to Wisconsin Manufacturing Property Assessment* located on our website: <u>revenue.wi.gov</u>, or contact the Manufacturing & Utility Bureau District Office in your area.
