IV. LANDSCAPING AND LAWN MAINTENANCE SERVICES

Wisconsin sales tax is imposed on the sale of landscaping and lawn maintenance services, including landscape planning and counseling, lawn and garden services such as planting, mowing, spraying and fertilizing and shrub and tree services.

Lawn maintenance services include several different services. For example, mowing lawns, watering lawns, aerating lawns, and raking leaves are lawn maintenance services.

Tangible personal property (such as trees, plants, and grass seed) that is physically transferred to the customer in conjunction with the provision of landscaping services is a sale of the property separate from the service. Therefore, the seller may purchase any tangible personal property without tax for resale that it transfers to its customers with such landscaping and lawn maintenance services.

Example: Landscaper X is seeding a lawn for its customer for \$1,000. Landscaper X is selling (1) the landscaping service, and (2) the seed. Therefore, Landscaper X's charge of \$1,000 to its customer is subject to sales tax. Landscaper X may purchase the seed without tax for resale.

Additional information is provided in [Publication 210](#), *Sales and Use Tax Treatment of Landscaping*, which includes examples of taxable landscaping services and nontaxable services.
