

## Instructions for 2018 Schedule ES

### Purpose of Schedule ES

Use Schedule ES to claim the non-refundable employee college savings account contribution tax credit.

### Who is Eligible to Claim the Credit

A partner of a partnership, a member of a limited liability company (LLC), a corporation, or a shareholder of a tax-option (S) corporation that is an employer and contributes to an employee's college savings account is eligible for the credit. **Federal Schedule C employers and estate and trusts are not eligible to compute the credit.**

Partnerships, limited liability companies, and tax-option corporations may not claim the credit, but the eligibility and amount of the credit are based on the amount they paid into a college savings account owned by the employee in the taxable year the contribution is made. A partnership, limited liability company, or tax-option corporation computes the amount of credit that each of its partners, members, or shareholders may claim and provides that information to them. Partners, members of limited liability companies, and shareholders of tax-option corporations may claim the credit in proportion to their ownership interests.

### Definitions

- “Claimant” means an individual who files a claim under this subsection and who is a partner of a partnership, member of a limited liability company, or shareholder of a tax-option corporation that is an employer and that contributes to an employee’s college savings account under [par. \(b\)](#).
- “College savings account” means a college savings account, as described in [s. 224.50](#).
- “Employee” has the meaning given in [s. 71.63 \(2\)](#).
- “Employer” means an employer that is a partnership, as defined in [s. 71.195](#), or a tax-option corporation, as defined in [s. 71.34 \(2\)](#).

### Credit Computation

The credit may be computed for each employee of the employer equal to the amount the employer paid into a college savings account owned by the employee in the taxable year in which the contribution is made.

The maximum contribution to the employees college savings account is equal to 25 percent of the maximum amount that an individual contributor may deduct under [s. 71.05\(6\)\(b\)32.a., Wis. Stats.](#), per beneficiary (\$3,200 X 25% = \$800; \$1,600 X 25% = \$400 if married filing separately or a divorced parent).

The maximum credit per employee is equal to 25 percent of the amount the employer contributed to the employee’s college savings account, subject to the maximum contribution limitation above.

The credit must be claimed within four years of the unextended due date of your return.

Complete the following worksheet *separately for each employee* that you made contributions to a college savings account owned by the employee:
