Instructions for 2010 Schedule FP

GENERAL INSTRUCTIONS

Purpose of Schedule FP

Use Schedule FP to claim film production credits. The film production services credits are available to a film production company that operates an accredited production in Wisconsin and that received a commitment letter and list of approved expenses from the Wisconsin Department of Commerce as a result of filing an application. The film production company investment credit may be claimed where the Department of Commerce has certified in writing that the credits are for expenses related to establishing a film production company in Wisconsin.

For information on certification and approvals by the Department of Commerce, visit the Department of Commerce web site at www.commerce.wi.gov or write to the Wisconsin Department of Commerce, PO Box 7970, Madison WI 53707-7970.

Who is Eligible to Claim the Credit

The film production credits are available to any individual, estate, trust, partnership, limited liability company (LLC), corporation, or tax-exempt organization that is certified or approved by the Department of Commerce.

Tax-option (S) corporations, partnerships, and LLCs treated as partnerships cannot claim the credit at the entity level. However, the credit attributable to the entity's business operations passes through to the entity's shareholders, partners, or members in proportion to their ownership interest.

The film production services credit may be claimed by a film production company that operates an accredited production in Wisconsin. However, this credit is not available if less than 35 percent of the total budget for the accredited production is spent in Wisconsin.

The film production company investment credit is available to persons who do business in Wisconsin as a film production company. The expenses, certified in writing by the Department of Commerce, must be for expenses related to establishing or operating a film production company in Wisconsin.

Credit is Income

The credit that you compute on Schedule FP is income and must be reported on your Wisconsin franchise or income tax return as income in the year computed.

Carryover of Unused Credit

For the nonrefundable credits in Parts III and IV, any unused credit may be carried forward for 15 years. If there is a reorganization of a corporation claiming the credit(s), the limitations provided by Internal Revenue Code (IRC) sec. 383 may apply to the carryover of any unused credit.

Definitions Applicable Under 2009 Law

"Accredited production" means a film, video, broadcast advertisement, or television production, as approved by the Department of Commerce, for which the aggregate salary and wages included in the cost of the production for the period ending 12 months after the month in which the principal filming or taping of the production begins exceeds \$50,000. An "accredited production" also includes an electronic game, as approved by the Department of Commerce, for which the aggregate salary and wages included in the cost of production for the period ending 36 months after the month in which the principal programming, filming, or taping of the production begins exceeds \$100,000.

"Accredited production" does not include any of the following, regardless of the production costs:

- News, current events, or public programming or a program that includes weather or market reports.
- A talk show.
- A production with respect to a questionnaire or contest.
- A sports event or sports activity.
- A gala presentation or awards show.
- A finished production that solicits funds.
- A production for which the production company is required under 18 USC 2257 to maintain records with respect to a performer portrayed in a single media or multimedia program.
- A production produced primarily for industrial, corporate, or institutional purposes.

"Production expenditures" means any expenditures that are incurred in this state and directly used to produce an accredited production, including expenditures for set construction and operation, wardrobes, make-up, clothing accessories, photography, sound recording, sound synchronization, sound mixing, lighting, editing, film processing, film transferring, special effects, visual effects, renting or leasing facilities or equipment, renting or leasing motor vehicles, food, lodging, and any other similar expenditure as determined by the department of commerce. "Production expenditures" do not include salary, wages, or labor-related contract payments.

"Film production company" means an entity that exclusively creates accredited productions.

SPECIFIC INSTRUCTIONS

Whether Part I, II, III, or IV of Schedule FP applies depends on when the company was certified by the Department of Commerce. Several changes were made to the film production credits by 2009 Act 28, which was enacted on June 29, 2009. These changes are generally effective for taxable years beginning on or after January 1, 2009. These changes include:

- Making both the film production services credit and film production company investment credit refundable.
- Capping the total amount of credits awarded under the film production credits program in a fiscal year to \$500,000.
- Making various changes to the definitions of "accredited production," "film production company," and "production expenditures."

The instructions for companies certified by the Department of Commerce before June 29, 2009, are different from the instructions for companies certified on or after June 29, 2009. If you are unsure of the certification date of your company, contact the Department of Commerce. Instructions for each group of companies follow:

Companies certified on or after June 29, 2009, complete Part I or Part II of Schedule FP, or both, as applicable.
